NEW THREAT TO EGYPT

Britain in Second Ultimatum

Demands 500,000 Pounds Indemnity Before Monday at Noon

Britain is Ready to Move if Satisfaction Not Given in Week Murder

LONDON, Nov. 23.—The crisis in Egypt has reached a new stage. The British government has issued a second ultimatum to the Egyptian government, demanding 500,000 pounds indemnity for the murder of Lord Allenby, before Monday at noon. The ultimatum also demands that the Egyptian government should accept all the demands of the British government in the Sudan and should accept the British ultimatum in the Sudan.

The ultimatum also demands that the Egyptian government should accept the British ultimatum in the Sudan and should accept the British ultimatum in the Sudan.

The ultimatum also demands that the Egyptian government should accept the British ultimatum in the Sudan and should accept the British ultimatum in the Sudan.

PLANES COLLIDE IN AIR

Killing Man and Girl

Hundreds at Clover Field See Fatal Crash of Machines Attempting Landing; Army Men Hurt

SANTA MONICA, Nov. 23.—Two persons were killed and two seriously hurt today when airplanes collided 200 feet above the earth at Clover Field, near here. The accident was witnessed by hundreds of horror-stricken spectators. The dead are Ralph Hugh Jennison of 754 Olive Court, Pasadena, and Miss Ruth G. Wilson of 875 Galena avenue, Pasadena. They were killed almost instantly.

LONG CRUISE FOR FLEET

Armada to Visit Australia

Stronger Sea Force Than That Led by "Bob" Evans in Historic Voyage

WASHINGTON, Nov. 23.—Plans for the maneuvers and battle exercises to be conducted in the Pacific in the summer of 1925 by the United States Fleet include the dispatch to Australia and New Zealand of the most powerful American armada ever sent into the Antipodes. Three divisions of the fleet will engage in this cruise. Embarked in them are even dozen dreadnaughts, the most powerful in the American Navy with an aggregate displacement of 375,200 tons, which represents a heavier fleet than that which the late Rear Admiral "Fighting Bob" Evans led in the world during the administration of former President Roosevelt.

Salcedo Says De la Huerta is Marshaling Rebels From Los Angeles

British Oil Interests Back Plot, El Paso Advises Report; Army Out

MEXICO CITY, Nov. 23.—Three generals, De la Huerta, Ravelo and Enriquez, four colonels and ten other officers of the Federal army, were shot yesterday at Villa Hermosa, capital of the State of Tamaulipas, after a hurried court-martial as the result of the report of an uprising by Gen. Angel Flores in the State of Sinaloa. These shot had taken part in the De la Huerta insurrection and surrendered two months ago. Government agents watching them surprised them, it is said, in a revolutionary meeting plotting against the government. Many people in Tamaulipas are reported to be involved in the plot.

TOKIO WILL SEND GOLD ABROAD IF YEN GOES LOWER

Yen Exchange Value of Gold

TOKYO, Nov. 23.—In the event there is a further decline in the dollar exchange value of the yen the government proposes to release special reserves abroad for cotton and other imports, replacing them by exports of gold coin as required. The government has been watching the yen exchange value of the dollar with great interest. It is reported that the government has been considering the possibility of releasing special reserves abroad for cotton and other imports, replacing them by exports of gold coin as required.

CHARLIE CHAPLIN TO WED LITA GREY, REPORT SAYS

Mexican License Issued in October; Girl's Grandfather Admits Actor is on Way to Guaymas

Circumstantial reports that Charles Spencer Chaplin's susceptible heart had again yielded to a captor, and that he is on his way to Guaymas, Son., to wed his leading woman, Lita Grey, were given confirmation by the statement last night of Miss Grey's grandfather that he had seen Chaplin board a Southern Pacific train at 5 p.m. yesterday and that Guaymas is his destination.

DR. GRANT IS DERANGED

Rector Has Short Time to Live

Liberal Preacher Once Loved by Beauty is Mental and Physical Wreck

NEW YORK, Nov. 23.—Rev. Dr. Percy Stickney Grant, former rector of the Church of the Ascension on Fifth avenue, has been pronounced mentally unbalanced. He is given only a short time to live by attending brain specialists. Dr. Grant came from his Bedford Hill home tonight and entered a New York hospital, to undergo treatment for anemia, to which disease he referred in his resignation, accepted last June 30 after thirty years' service.

CROWDS FILE BY
BIER AT MARIONFriends Win Plea For Last
Look at Mrs. HardingHome Folks Pay Tribute
Silently, ReverentlyCortege to Take Same Route
as in President's Funeral

(BY A. P. NIGHT WIRE)

MARION (O.) Nov. 23.—

Thousands of neighbors and friends today passed the bier of Mrs. Warren G. Harding to pay their last respects. Since early morning, when a line formed at the Longshore home here, where the body of the former first lady of the land rested, a steady stream of people passed in and out. It was a silent, reverent crowd, mostly people who had known the Hardings when they were struggling newspaper folks and who had watched their political fortunes rise until, on a March day in 1921, they had the funeral as they left for the Presidential inauguration ceremonies in Washington.

The public was permitted to view the remains only after repeated requests had been made to the Harding family, who had refused until it was suggested that "Mrs. Harding never denied the public a privilege that she thought belonged to them."

UNCLE CHARLEY THERE

One of the first to pass the bier was "Uncle Charley" Patton, until recently White House grounds keeper. When the Hardings were leaving Marion in 1921 Mr. Harding noticed the sorrowful look of "Uncle Charley," who had faithfully kept the grounds about the Harding home clean during the 1929 front porch campaign. "That's the old Uncle Charley," Mr. Harding asked. "I hate to be left behind," he replied. "Pack up your grip. I have a ticket for you and you are going to Washington with us."

Dr. G. T. Harding, aged father of the late President, also visited the Longshore home for the first time today. "She was a splendid woman," Dr. Harding said. Delegates of the Ohio Association of Newspaper Editors in session here went to the Longshore home in a body this afternoon and as they passed the casket each laid a pink carnation on the foot of Mrs. Harding, who was a member of the association.

DINNER FOR SOLDIERS

Flowers sent by President Coolidge rest at the foot of the casket. So many floral pieces have arrived that it has been necessary to place scores on the front porch of the home.

It became known today that one of Mrs. Harding's last acts was the gift of \$125 to the soldiers on guard at President Harding's home to provide them with a Thanksgiving dinner.

The funeral cortege, following services at Epworth Methodist Episcopal Church tomorrow afternoon at 2 o'clock, will move from the church to the cemetery over the same route as that taken when President Harding was entombed.

The services will be in charge of Dr. Jesse Swank of Epworth Church, assisted by Rev. George W. Landon, pastor of Trinity Baptist Church.

BAVARIA TO
KNOCK OFF
LID ON BEERBreweries Brewing Brew
With More Kick as New
Year Approaches

(BY CABLE AND ASSOCIATED PRESS)

MUNICH (Bavaria) Nov. 23.—German beer is to have a little more kick after January 1, next, when all government restrictions as to alcoholic content are to be removed. Ever since the war, brewers have been limited to the amount of alcohol beer is to contain. During the last year or so the lid has been lifted gradually, and recently it was announced that the new law is to be taken off altogether.

Under the present regulations, only 16 per cent of the total out of the brewer's beer is to be an alcoholic content of more than 16 per cent, but when the restrictions are lifted beer may be manufactured with all the strength that the master brewers desire to give it.

Likewise, there is happiness in anticipation of the "hook" beer season which is to open soon. All the big breweries, such as Beck's, Beck & Co., and others, are busy concocting this special beer, which contains more alcohol than the ordinary beverage.

January 1 is the date set for beginning the sale and orders are coming in from every part of Germany for kegs of it. In Berlin, it is anticipated, this year's output of Munich beer will prove as popular as that of a number of Berlin breweries are busy setting up a supply of their own. This probably will be placed on the market at Easter time.

public's memory; denial, confirmation, and final parting. Not in mention Peggy Joyce and Estelle Taylor, two other young women connected to them.

MANY REPORTS

Lita Grey, whose mother says she is 18, became Chaplin's leading woman last spring, vice Edna Purviance, whom the comedian declared he would make a star. She had worked with Chaplin in one picture some years ago, when she was just a child. The first trip known Chaplin was seeking a successor to Miss Purviance. Lita's mother took her to his studio, a test was made, and the selection of Miss Grey was announced.

Chaplin's new film—tentatively titled "The Gold Rush"—has been steady, very few test of film containing Miss Grey have been shot. Miss Grey explained, some weeks ago, that the portions of the picture in which she is to appear were being reserved till the last, which seemed reasonable enough. She said that she also expected to begin actual work in two weeks. But she did not.

Hollywood reports about Chaplin had broken off professionally. These were denied Saturday night by the comedian, in the same breath with the engagement denial.

"Miss Grey is still my leading woman," he said. "She will continue as such, but we are neither married nor engaged."

The Guymay dispatches said the ceremony was to be conducted at Empalme, a Guymay suburb, and would be civil in character, and that after the ceremony the actor and his bride would continue their film work. It declared all the preparations were made, and said that the ceremony would be held yesterday. Guymay, a port on the Gulf of California, is readily reached by railway from Nogales.

Miss Grey and Chaplin both have gone to Guymay on at least three other occasions, according to Miss Grey's gradual disclosure. Her first trip was about three months ago, the second about two months ago, and the third six weeks ago.

"I got down with Lita this time," he said. "But I was detained by a suit of clothes and could not go to go down with Lita this time."

The last time Miss Grey was interviewed concerning the marital rumors she denied them, but admitted that all Hollywood knew that she was much in Chaplin's company.

"We go out a good deal together," she said. "I suppose everybody goes out a good deal with his leading lady."

Miss Grey and Mrs. Spicer started for Guymay last Wednesday. Another report concerning Chaplin's first acquaintance with Miss Grey was to the effect that he had spied her on the street and had seen her several possibilities. She was then a schoolgirl. Chaplin sought her out, the report continued, arranged for a screen test, and suddenly announced to the surprise of everybody except Miss Grey herself, that he had selected her to play opposite him in his next comedy.

NILDRED HARRIS

WINNER EX-MATE LUCK
Miss Mildred Harris, who was the first wife of Chaplin, and who bore a son to him who died in infancy, stated last night, when apprised of the Chaplin wedding plans, that she wished him the best of luck in his new matrimonial venture.

"I hope Mr. Chaplin and Miss Grey will be very happy," she said. "I did not know until today that they planned to marry. I am proud that the mother of my son, Charles Chaplin, Jr., and I hope they have a baby to replace the one I lost."

MANY PUPILS ENROLLED

(LOCAL CORRESPONDENCE)
CRESCENTA, Nov. 23.—Mrs. Winnie Crosby has been added to the teaching staff of the Crescenta school district, making fourteen teachers now employed at the La Crescenta and Montrose schools.

Other than the principal, A. T. Blanford. The total enrollment is 148 pupils in the eight grammar grades. There is no kindergarten in this district.

unconscious, but still living, and rushed them to the hospital. A hurried examination there showed that no bones appeared to be broken, but it was said that both might have internal injuries.

Barring these, it was said, it was expected both would pull through. Jensen's body was sent to the O. K. Kinsale undertaking room at Ocean Park. The body of Miss Wilson was taken to Martin's Mortuary in this city.

Lieut. Horace C. Kenyon, commander of Clover Air Field, said he would select a number of aviators from the field to constitute an investigating board to ascertain the cause of the accident. The board is to meet today.

northern border. The concentration point for the northern movement is said to be in the State of Sonora.

Gen. Angel Flores and De la Huerta are said to be the leaders in the projected revolution. Alfonso de la Huerta, brother of Adolfo, is said to be in Tucson, while Adolfo is reported to be in Los Angeles, directing the preliminary arrangements for the initial start of the movement.

On good authority it was learned today that Alfonso de la Huerta was in El Paso last week and held a conference with rebel leaders at a local hotel.

A conference in which it is asserted British capitalists took part was conducted in New York City recently.

ARRESTS EXPECTED
Salcedo gave convention delegates the names of a large number of plotters in El Paso and Los Angeles, and the arrests are expected to make several arrests soon.

The revolution is scheduled to get under way on December 1, after the inauguration of Gen. Calles as President of Mexico.

Salcedo's plan is to bring together the remnants of the De la Huerta following and recruit members of the old Villa forces in the mountains of Chihuahua as well as along the border near El Paso and Tucson.

In making his charge, Salcedo stated that there will be no danger to the American Federation of Labor delegation that will leave here Thursday to witness the inauguration of President Calles.

Special trains are being prepared and each train will be guarded by a train bearing soldiers. Armored cars will be attached to the special train.

AIMS CATCH RECALLED
The revolutionary plot is thought to have been conceived in the minds of the Mexican Confederation of Labor delegates to the discovery of a cache of arms and ammunition in British Honduras, shipped from England. It is asserted to be another link in the chain of events hostile to the Obregon-Calles regime.

Only in the case of the De la Huerta rebellion has there been an armed overthrow, but it is reported that there have been many evidences of hostility, among them being the refusal of the British government to accept recognition of the new government.

It has been customary for European governments to follow the lead of the United States in Latin America. The British government, it is said, has been set aside in this case.

The Ramsey MacDonald Labor party government, which was formed in 1929, followed the lead of the preceding Baldwin government, but brought about a wide change in the policy of the British government toward the new government.

ANNOUNCEMENT!
Continuing the precedent established on last Monday evening there will be no night at Culver City tonight.
—DAY—

THANKSGIVING DAY RACE AT CULVER CITY SPEEDWAY IS POSTPONED

Tilden and Richards Conquer Snodgrass and Casey in Wind-up of Series

MOMENTS OF ACTION THAT THRILLED THOUSANDS IN BERKELEY STADIUM

The upper photograph of the Stanford-California game Saturday, which resulted in a 20-to-20 tie, shows the ball in the air, in the upper center, after it had left the valuable toe of Murray Cuddeback, Stanford scored a field goal on the play from the 35-yard line. Below, Inlay of California being tackled by Shipkey of Stanford on an attempted run. (Photos by the San Francisco Chronicle.)

Young Harkens to Plan of Drivers
Granted More Time for Boat Practice
New Records Will be Hung Up on Track

announcement emanating from Al Waddell, city director for the new Culver City bowl, was to the effect that the 250-mile speed race which was to have taken place at the Culver oval on Thanksgiving Day, has been postponed until December 7.

The decision was given out by Young, president of the association, after he had been in conference with the A.A.A. officials, members of the drivers, who were to compete in the big Turkey race.

ASK MORE TIME.
Young requested more time for the race, said that the drivers were to be given more time to practice, and that the race would be postponed until December 7.

RECORDS TO FALL.

BERGERE STARS AT ASCOT

French Speed Demon Roms Off With Major Honors on Bentel's Track in Holiday Bill

Dipping his fingers into the already steaming Turkey Day kettle, George Bentel yesterday afternoon at Ascot Park Speedway dished out a savory sample of what may be expected when the big \$52,000 road race over hill and dale is run next Thursday.

The sample of Thursday's piece de resistance was handed out when, in the feature event, thirty-two automobiles of all makes and descriptions hurried, slid, skidded, bumped, jumped and by other speedy methods negotiated five laps of the five-mile course in a series of elimination trials.

Turning around three times on difficult turns, and hitting a seventy-mile-an-hour pace, Cliff Berge, French, fought it out with George Bentel for first place, with "Can-Can" Baker a close third, and the rest of the field strung out in a picturesque procession on the steep hills that feature the road-race track.

From the start it was apparent that Berge was bidding for the position of Chief French chef for Turkey Day's biggest racing day. He cut corners and dashed up 27 per cent grades in a striped Cunningham roadster in a way that brought a roar of approval from the crowd.

One of the feature spots of the course is located at the bottom of the big hill that fronts the grand stand. Here he came straight down the side of the hill on a stiff grade, crossed a wooden bridge, and then suddenly he forced to make an almost right-angle turn.

Berge usually negotiated this bend by doing a superkick, but sometimes he could himself and turned around twice before he could get headed in the right direction.

MELVILLE GRIDS TRIP FLEET AIR

Flyers Lose Hard-Fought Battle at San Diego by Score of 16 to 7

FLYERS LOSE.
SAN DIEGO, Nov. 23.—The U.S. Navy fleet air group lost a hard-fought contest from the Fleet Air team today in the stadium, 16 to 7, and thereby clinched the local service football championship.

WHITE POLO FOUR BOWS TO PURPLES

Pale Quartet Loses 8-to-6 Exciting Contest on Field at Midwick Club

Purple and white-clad polo teams, composed of Midwick Country Club members put on another exciting game at Midwick yesterday, the Purple winning by an 8-to-6 score.

Both teams played a strong defensive game in the first four periods, only five goals being scored. The Whites took the lead with one goal in the first period and their opponents evened it with one in the second. Two in the third gave the Whites a lead which was increased by one more in the fourth chukker.

When they came out for the second half, Dr. Mallaby was playing No. 3 for Miller on the White team. Both fours quit the defensive play and began taking chances.

The Purple gained a goal, making the score, Whites-6; Purples-4. Harry Hunt got in his good work in the sixth period and the Purple took the lead with four goals. The last period was a scoreless tie.

SCORE BY CHUKKERS.
Period 1: Whites 1, Purples 0.
Period 2: Whites 1, Purples 1.
Period 3: Whites 2, Purples 2.
Period 4: Whites 3, Purples 3.
Period 5: Whites 4, Purples 4.
Period 6: Whites 4, Purples 6.

INVADERS SHOW SUPERIORITY

Tilden Downs Snodgrass by 6-0, 6-4, 6-4 Count Casey Carries Richards to Four Fast Sets

BY CHARLES WEST.
Tilden, Richards & Co. wound up a three-day invasion of Southern California yesterday at the Los Angeles Tennis Club by walloping the best available California talent with neatness and dispatch.

Richards, Olympic champion, gave the large crowd an exhibition of the strokes with which he won the world's title in trimming Ray Casey, the San Francisco southpaw, in four scintillating sets, 6-2, 7-6, 8-6, while Big Bill Tilden, national champion for years, submerged Harvey Snodgrass, 6-0, 6-4, 6-4, without even taking off his passionate sweater.

As a sort of postscript to the afternoon's entertainment, Snodgrass and Casey teamed up and trimmed Tom Ferrandini and Harold Godshall, 7-6, 6-4, after which everybody congregated in the clubhouse to absorb the color.

SUPERIOR.
Although Snodgrass and Casey gave their talented Eastern opponents plenty of exercise, it was obvious throughout both matches that Tilden and Richards had things well in hand and were able to go out and get a few points whenever the necessity arose.

SPEEDY STUFF.
Snodgrass settled down again in the third set after Tilden had a comfortable lead at 4-1 and won three games in a row to tie the count. Here Tilden began to uncoil his celebrated speed to such an extent that he had the line-angels.

SPEEDY STUFF.
Snodgrass settled down again in the third set after Tilden had a comfortable lead at 4-1 and won three games in a row to tie the count. Here Tilden began to uncoil his celebrated speed to such an extent that he had the line-angels.

PENNSYLVANIA GOBS WIN

U.S.S. Tennessee Eleven Beaten by 21-to-3 Score at Trona Field; Ten Thousand Fans Watch Game

EXCLUSIVE DISPATCH.
LOS ANGELES HARBOR, Nov. 23.—Ten thousand Navy and civilian customers watched Commander "Bully" Richardson's prize eleven from the U.S.S. Pennsylvania trim the U.S.S. Tennessee 21 to 3 at Trona Field this afternoon. The game was the first of three for the championship of the battleship division, the winner of the series meeting the destroyer squadron's team here on December 13 for the battle fleet title.

Ensign Hughes and his Key-stoners played their best football of the season and well deserved the victory. By the same token the boys from the rebel ship also got what they earned, their line playing a listless game and giving the hard-working backs no support.

Hughes cracked through for the Pennsylvania's first touchdown two minutes after the whistle the tally following his snarling of a beautiful pass from Chesik. Hughes carried the ball over again in the third quarter after it had been booted about midway considerably by both squads.

The spectators' first touchdown was made five minutes later when Flood, the high-speed tackle, in the battle fleet intercepted a Tennessee pass and packed it thirty-five yards for the score. Flood also converted all three points.

Phil Mata to Meet Lancha at Pasadena

Phil Mata and Young Lancha, who fought to a lively draw at the Pasadena Armory two weeks ago, have been rematched for the main event of the Armory's weekly program, which will be held Wednesday of this week instead of Thursday due to the occurrence of Thanksgiving.

Although neither boxer has reached main event heights before, both have made excellent records as preliminary scrappers, and may be depended on to furnish a real battle.

Young McDowell of Glendale, who was knocked out by Billy Kaiman of Alhambra a few weeks ago, has been insisting ever since that the blow was a lucky punch, and is anxious to have another try at the Alhambra pug.

Matchmaker Pop Hanlon accommodated him, and the boys will face each other again in the semi-final of Wednesday night. Mickey O'Brien and Johnny McCoy have been billed for the special spot, while Jimmy Porter and Young Polo will provide the feature preliminary.

BERKELEY VITAL STATISTICS

BERKELEY, Nov. 23.—While officials of the Associated Students of the University of California were still struggling today to compute attendance at the Stanford-University of California football game yesterday, estimates of the crowd were made which ranged from 50,000 upward.

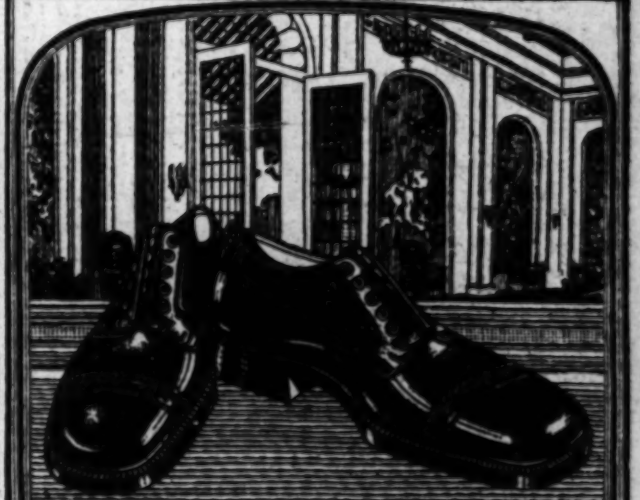

The California stadium's seating capacity of 72,000 was filled. Wooden seats built along the upper edge accommodated 3400 more. Along the Berkeley hills, back and above the stadium, space was assigned to applicants for tickets to the game who could not be accommodated and estimates of the number who saw the struggle from this vantage point ranged from 15,000 to 25,000, without possibility of an accurate check ever being made.

Five arrests were made at the game by Federal prohibition enforcement officers. Four of the arrested are held today under \$1000 bond and the fifth, also charged with resisting arrest, has posted \$2500. None of the arrested was a student at either California or Stanford.

BIDDY BISHOP BRINGS BOXING STRING WEST

CINCINNATI, Nov. 23.—Biddy Bishop, veteran trainer and boxing manager, left Cincinnati last night with a string of eight boxers ranging from featherweights to heavyweights, for a trip designed to take him through the Northwest and to the Pacific Coast.

Many bouts have been scheduled during the trip, which is expected to last until May 1, 1925. The string of boxers includes: K. O. Mars, Anthony Downey, Irving Goldberg, Phil Herkert, Alex Novack, Jimmy Moore, Gene Larue, and Sammy Sandow.

STAKE HORSES AT BORDER

Real New York Atmosphere Given Tia Juana Track by Arrival of Eastern Steeds for Opening

EXCLUSIVE DISPATCH
TIA JUANA RACE TRACK (Max.) Nov. 23.—A real New York atmosphere was given the Tia Juana race track today through the arrival of well-known stake and handicap horses. Nine teams in the lot, all shipping in the car from Baltimore with Earl Linnell, a well-known trainer, in charge.

For the first time the colors of Maj. August Belmont, president of the New York Jockey Club, and one of the pillars of the thoroughbred sport, will be flashed at the Tia Juana course. The Belmont stakes will be carried by Lucky Play, a 3-year-old colt by Fair Play-Lucky Catch. A real good distance horse is Lucky Play, his achievements of the summer racing including a clever victory in the Old Hickory handicap at Empire City, where he picked up 130 pounds and ran one mile and seventy yards in 1:42 4-8, to beat such eastern cracks as Feyson, Mado, Rigel, Jockey, Nancy Langhorne and Procopio. Lucky Play will be the Belmont candidate for the 1925 600 Cofroth handicap and other big stakes of the meeting.

FITZGERALD ARRIVES
Another New Yorker who enters the Tia Juana racing for the first time is Judge Chris Fitzgerald of the New York Jockey Club. Judge Fitzgerald, who was a victor here last winter, retained the attractiveness of Tia Juana racing and he decided to be represented. His horse, a top-notch performer at Tia Juana last season, is a 3-year-old named by John B. Mills, Long Beach millionaire, who races under the name of the Los Angeles Stable. Osprey was a seven-time winner here last season and is the only horse to have won the high turn to speed Osprey demonstrated last year in the "Run like the wind" when he won the George Washington Handicap of six furlongs in 1:11 1-4, and set a new track record. He shouldered 136 pounds in this.

OSPREY IN FORM
In his summer campaign Osprey won two out of his three starts. In one race at Laurel he had the honor of beating Chae Pie. He again will be a candidate in the Cofroth and other stakes.

Another to come in the shipment is Catherine Marrone, a very useful mare who is member of the Los Angeles Stable. Others which arrived in the same lot are Wandering Eye, who is 2-year-old; Better Times, a 4-year-old; and Budde Jean, a 3-year-old. These five will be the main attraction of the Tia Juana racing.

Making a careful inspection of the shipment, the Tia Juana Jockey Club found all in readiness for the opening of the season. The Tia Juana Jockey Club is so well advanced in their training that they will have excellent cards right from the start, said Cofroth.

BUICK AUTOS THUMP RIVERA BALL TEAM
A terrific eight-run rally in the ninth inning gave the Buick Auto baseball team a 12-0 victory over Rivera at Los Nietos yesterday. The game was spectacular in the extreme. The first four frames went scoreless. Then the Autos got a run in the fifth, and the Rivera counted four times in the sixth. The Buick team led it up with two runs in the seventh and eighth went scoreless. Then the Buick broke loose with a crushing attack in the ninth and took the game. Mack and Burbank started at bat for the winners with three hits apiece. The score:

BUICK AUTOS	RIVERA
Runs 12	Runs 0
Hits 12	Hits 0
Errors 0	Errors 0
Total 12-0	Total 0-12

ST. LOUIS GIANTS IN WIN OVER GLENDALE
The St. Louis colored Giants once more proved to a large crowd that they can beat the Glendale White Sox night after night by counting the Pale Hose, 11 to 5, yesterday at Goodfellow Park. St. Louis won the game in the seventh and eighth went scoreless. Then the Buick broke loose with a crushing attack in the ninth and took the game. Mack and Burbank started at bat for the winners with three hits apiece. The score:

ST. LOUIS GIANTS	GLENDALE
Runs 11	Runs 5
Hits 12	Hits 8
Errors 0	Errors 0
Total 11-5	Total 5-11

BLUE DIAMONDS SINKS TACOMA
A whole lot of fun was had in the first and second frames of the Tacoma baseball team's victory over the Blue Diamonds yesterday at Goodfellow Park. Tacoma won the game in the seventh and eighth went scoreless. Then the Buick broke loose with a crushing attack in the ninth and took the game. Mack and Burbank started at bat for the winners with three hits apiece. The score:

BLUE DIAMONDS	TACOMA
Runs 0	Runs 1
Hits 0	Hits 1
Errors 0	Errors 0
Total 0-1	Total 1-0

KEYS ARE TROPHIES IN GOLF TOURNEY
A whole lot of fun was had in the first and second frames of the Tacoma baseball team's victory over the Blue Diamonds yesterday at Goodfellow Park. Tacoma won the game in the seventh and eighth went scoreless. Then the Buick broke loose with a crushing attack in the ninth and took the game. Mack and Burbank started at bat for the winners with three hits apiece. The score:

KEYS	TROPHIES
Runs 1	Runs 0
Hits 1	Hits 0
Errors 0	Errors 0
Total 1-0	Total 0-1

DETROIT NOV. 23.—Bob Sage, Detroit middleweight today won his acceptance of a bout with Harry Greb, to be held at Pittsburgh on December 1. It will be a ten-round decision affair.

SAWTELLE TEAM WINS
Sawtelle defeated the Wilmington baseball team by a 3-0 score at Sawtelle yesterday. Although the losers got eight hits to Sawtelle's one, they couldn't seem to score. Eight errors were made altogether. Miller, Criss and Bessell formed the Sawtelle battery; Burnside and McMullen worked for the losers.

Jack Johnson, former heavyweight champion, who is barred from boxing almost throughout the United States, is now a Gospel preacher.

Champ Faces Ex-Champ

Perry Gets Much Backing

Sailors Off U.S.S. West Virginia Support Navy Scrapper to Whip Colima at Vernon Tomorrow

Battlers on the U.S. dreadnaught West Virginia, newest member of the Pacific Fleet, are planning on a real demonstration at Vernon Tuesday night when Jack Perry, middleweight scrapper, will tackle Ben Colima, Whittier Mexican, for the Pacific Coast championship of the 145-pounders. Every sailor on board Uncle Sam's newest fighting machine who can get shore liberty will be at Jack Doyle's ringside, and both officers and men are attempting to obtain consent of fleet officials for the famous band of the West Virginia to attend and furnish music for the occasion. Every battle on the seven-bout program will see a member of the fleet in action and intense interest is apparent among both officers and men.

Perry who has an enviable reputation as a mauler among the sailors and middles of the eastern fight clubs, is making his first professional fight since he was a midshipman at the U.S. Naval Academy. He is a good shot at the Colima club. Colima's impressive record has made no impression on the hard-boiled sailor and he is anxious to show Coast fans what he can do.

HARD TEST
Johnny Lamar is facing what is expected to be the hardest test of his career when he meets with Sailor Ritchie King in the semi-final of the King of the Ring tournament. King is a featherweight champion of the Navy and is said to be a great puncher with both hands. Lamar is expected to be a hard fight, but he is confident of his ability to win.

Another sensational battle looms in the special event when Frankie Grandetta will tackle Sailor Navarro. Navarro looked Benny Diaz at Vernon last week and made good with a bang. Grandetta has not boxed at Vernon since he lost a sensational battle to Fidel Barrera. But his game exhibition in that event left him far more popular with the fans than winning battles had ever done for him.

MUCH ACTION
The rest of the card promises lots of action for Jack Doyle's patrons. Sailor Joyce, who took a hairline decision over Paul Duran last week, is expected to be a hard fight in an attempt to duplicate the feat and Joe Layman, champion of the Vernon gymnasium, is expected to be a hard fight in an attempt to duplicate the feat and Joe Layman, champion of the Vernon gymnasium, is expected to be a hard fight in an attempt to duplicate the feat.

Warmed Up for the Big Set-to
Photo shows Jack Schaefer, former billiard king, preparing for his big tilt with Willie Hoppe, present title holder, in a 2300-point game to be staged at Wright's Billiard Palace commencing tomorrow afternoon. The cue stars will play 400 points each afternoon and evening, the match concluding on Friday.

HOPPE AND SCHAEFER MEET
Rival Billiard Wizards in Match Here for Big Purse; Both in Excellent Form

In a special match game of 14.3 ball billiards, Willie Hoppe, world's champion, will engage his closest rival, Jack Schaefer, former champion, to a 2300-point game. These two contestants will play for a side purse of \$500, and division of gate receipts 50-50. The match will be held at Wright's Billiard Palace, tomorrow, Wednesday, Thursday and Friday, in blocks of 400 points, afternoon and evening. This match is very important to both these wizards of the green cloth and is a hard game to expect.

Hoppe arrived in Los Angeles last night and will immediately get into practice. He has had a very successful season in the East playing the best of the professional three-cushionists. The peer of the billiard stars recently announced the acceptance of a match to be played against Bob Cannell, on his return to New York City, following his game with Schaefer, in San Francisco.

The former champion, Schaefer, is in excellent form and according to his admirers he may give Hoppe the surprise of his life, and capture the title match. Jake has his mind on winning the title match season when the famous international tournament begins.

ZELEZAK BOYS TAKE GAME FROM BURBANK
Zelez defeated Burbank by a 7-0 score at Burbank yesterday, the game being called on account of darkness at the end of the sixth inning. The Zelez boys were struggling along, battling for every point and putting up a classy exhibition of the national sport. The two teams were struggling along, battling for every point and putting up a classy exhibition of the national sport.

WHITE KING SOAPS CLEAN PALE HOSE
The White King soap squad took what looked like a tight game till the ninth inning from the Los Angeles White Sox by a 3-0 score at Piro's ball park. The score was 4 to 0 till the first half of the ninth inning, when the Soapsters went on a batting rampage, and scored six runs in the ninth. Parker, who held the mound for the winners, allowed the Sox but four scattered hits, and struck out eleven men, which is no mean feat.

Buss Arlett got the homer which he said he would get and Dick Cofroth also let one over the fence, just for good measure.

WILLARD TEAM RUINS E. K. WOOD OUTFIT
Willard and Woodhull's classy baseball team trampled on the E. K. Wood team by an 11-0 score at Goodfellow Park yesterday. The victors were supreme on both the attack and defense and were never in danger of being run out of the mound for the winners. The Lumbermen had their big inning in the second frame when they broke through for four hits, none of which were scored on. Parker, who held the mound for the winners, allowed the Sox but four scattered hits, and struck out eleven men, which is no mean feat.

ARCADIA DOWNS REDS IN LONG STRUGGLE
Salido, Arcadia infielder, crashed out a double with two on in the tenth inning yesterday and gave his team a 6-0 victory over the undefeated Pasadena Reds baseball team. Salido, Arcadia infielder, crashed out a double with two on in the tenth inning yesterday and gave his team a 6-0 victory over the undefeated Pasadena Reds baseball team.

GLENDORA WINS OVER PASADENA BALL NINE
Awerkamp, Glendora pitcher, was the big hero of yesterday's Glendora-Pasadena Paint baseball game, won by Glendora by a 3-0 score. Awerkamp allowed but two hits, issued three walks and struck out five in win for his team. Montgomery, Pasadena pitcher, got both his team's hits. One Pasadena run was made on a walk and an error. The score:

GLENDORA	PASADENA
Runs 3	Runs 0
Hits 3	Hits 0
Errors 0	Errors 0
Total 3-0	Total 0-3

L. A. CHINESE DEFEAT SALT LAKE SQUAD
The L. A. Chinese scored fourteen runs in four innings at Salt Lake Playgrounds yesterday and handed the Salt Lake boys a 14-0 victory. The Chinese took it easy after their avalanche of runs in the first four frames. Lee, on the mound for the victors, held the Tigers to eight hits. The score:

L. A. CHINESE	SALT LAKE
Runs 14	Runs 0
Hits 14	Hits 0
Errors 0	Errors 0
Total 14-0	Total 0-14

YOUNG CHIEF OAKES MAKES DEBUT HERE
Tom Kennedy, Hollywood mauler, will introduce a new face in "Tough Chief" Joe Oakes Oakland Portuguese Italian and fighting bantamweight sensation, in the fourth spot Friday night, against Billy Hart. Oakes has been displaying his skills in tip-top style at the Wilmington and Los Angeles Harbor clubs in such bouts as Sailor Ercell two times, Young Farrell, Art Springer, and knocked out Joe Ricker. If he can win over Hart Friday night, it is almost sure that Kennedy will pit him against George Rivera in a stellar spot in the near future.

The sport that draws the biggest gate, professional boxing, has the smallest number of persons who actually play the game.

PERRY GETS MUCH BACKING

Sailors Off U.S.S. West Virginia Support Navy Scrapper to Whip Colima at Vernon Tomorrow

Battlers on the U.S. dreadnaught West Virginia, newest member of the Pacific Fleet, are planning on a real demonstration at Vernon Tuesday night when Jack Perry, middleweight scrapper, will tackle Ben Colima, Whittier Mexican, for the Pacific Coast championship of the 145-pounders. Every sailor on board Uncle Sam's newest fighting machine who can get shore liberty will be at Jack Doyle's ringside, and both officers and men are attempting to obtain consent of fleet officials for the famous band of the West Virginia to attend and furnish music for the occasion. Every battle on the seven-bout program will see a member of the fleet in action and intense interest is apparent among both officers and men.

Perry who has an enviable reputation as a mauler among the sailors and middles of the eastern fight clubs, is making his first professional fight since he was a midshipman at the U.S. Naval Academy. He is a good shot at the Colima club. Colima's impressive record has made no impression on the hard-boiled sailor and he is anxious to show Coast fans what he can do.

HARD TEST
Johnny Lamar is facing what is expected to be the hardest test of his career when he meets with Sailor Ritchie King in the semi-final of the King of the Ring tournament. King is a featherweight champion of the Navy and is said to be a great puncher with both hands. Lamar is expected to be a hard fight, but he is confident of his ability to win.

Another sensational battle looms in the special event when Frankie Grandetta will tackle Sailor Navarro. Navarro looked Benny Diaz at Vernon last week and made good with a bang. Grandetta has not boxed at Vernon since he lost a sensational battle to Fidel Barrera. But his game exhibition in that event left him far more popular with the fans than winning battles had ever done for him.

Annual Bench Show Will be Staged Soon

One of the biggest dog shows that has ever been staged, will be pulled off December 13, when the Los Angeles Kennel Club give its fourth annual Ambassador Hotel Dog Show. All kinds of pups, from Althaus's toy poodles, to the latest around and pampered, to the Eskimo dogs, barbed, working huskies, from the frozen north, will be exhibited at the show. Every description of four-legged man companion ever developed, will be shown. Mexican hairless, Chinese Chow, stately wirehounds, Scotch collies, terriers of all sorts, and every other known "brand" down to Jimmy, the newsboy's mongrel.

Prizes of all sorts ranging from big beautiful cups to medals in bronze will be awarded in more than a hundred classes and animals that will be awarded in the special events on the program.

The annual dog show has been given at the Ambassador Hotel in the past have always been a decided success. The entry price for the show will be \$1.00, and \$1.00 for every class thereafter. Those who desire to enter should apply to O. C. Wyman, Show Superintendent, 413 Wright and Calender Building, city.

HOBBS BATTERY NINE WHIPPED BY OILERS
Three runs in the ninth inning served to give the Oil Well Supply team a decided victory over the Hobbs Battery outfit by a 10-3 score on the Downey Playground yesterday. Up to the ninth inning the Hobbs Battery led by a 3-0 score. The Oilers cut loose with three runs in the first half of that frame, that put the game in the Oilers' hands. Hobbs Battery hit out a homer, that did the dirty work. Score:

OILERS	HOBBS
Runs 10	Runs 3
Hits 10	Hits 3
Errors 0	Errors 0
Total 10-3	Total 3-10

PIRRONE STARS STOP VERNON SQUAD TWICE
The Vernon Tigers, undefeated up to yesterday and leaders in the Independent League, suffered a double set-back at the hands of Joe Pirrone's All-Stars in a twin game played at Washington Park. The Stars took the first game, 4 to 0, and the second, 4 to 0. Both games were played in less than an hour and a half, which shows that the players were hustling.

The addition of Pete Scott, Kansas City star to Pirrone's line-up, seems to have made the All-Stars the strongest squad in the loop. The Pirates were the winning hurler in the opener, while Bob McGraw let the Tigers down with five blows in the afternoon. Elmer Reiger hurried good ball after the first inning, in which the Stars scored all four runs. Scores:

PIRRONE	VERNON
Runs 4	Runs 0
Hits 4	Hits 0
Errors 0	Errors 0
Total 4-0	Total 0-4

VENTURA NINE CROWNS BARRY HAT PASTIMERS
The Ventura team piled up a lead in the third, fourth and fifth innings that gave them their game with the Barry Hatters of Los Angeles, by a 9-0 tally, in spite of a six-run rally by the latter aggregation in the ninth inning. The game was played in a strong wind that caused numerous errors, ten in all, on the part of both teams, but in spite of this, it was one of the most exciting ever witnessed here, due to the action. The Barry Hatters put up in the ninth inning. The score:

VENTURA	BARRY
Runs 9	Runs 0
Hits 9	Hits 0
Errors 0	Errors 0
Total 9-0	Total 0-9

A CHUCKLE FOR EVERYBODY

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of \$1, \$5, and \$10, and a list of those showing the film, together with prizes for submitting jokes, are given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the coupon. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of appreciation.

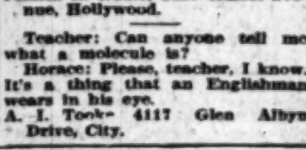

Mother: Look, Archie dear, there's the church where your father and I were married.
Archie: Who minded me that day, Mommy?
Mother: I, Townie, 153 South Borendo street, City.

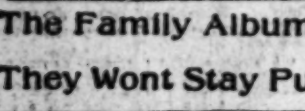

Professor: Does the question embarrass you?
Student: Not at all, sir, not at all. It is quite clear. It is the answer that bothers me.
Professor: Can anyone tell me what a molecule is?
Student: Please, teacher, I know. It's a thing that an Englishman wears in his eye.
A. I. Took: 4117 Glen Alhysa Drive, City.

Lady (at ticket window): Mer-r-yhill, single.
Pat (next): Pat Murphy, married.
H. E. Smith: 615 West Tenth street, Los Angeles.

Lecturer: What have you done to save our timber?

NAVY PROGRAM
UP TO CONGRESS
Report of Wilbur Expected
to Speed Rehabilitation

Leaders Foresee Action to
Restore 5-5-3 Ratio

Authorization Bill Calls for
New Warships

WASHINGTON, Nov. 23.—One of the first and most important questions that will come up in both houses of Congress shortly after that body meets next week will be that of rehabilitation of the Navy. Indications are that the Republican leaders will make a strong fight to bring the fleet once more to the 5-5-3 ratio allowed under the arms limitation treaty.

While the House will be whipping the naval appropriation bill through the Senate, action in the Senate on a \$125,000,000 construction and repair program, held up at the last session, probably will be hastened by the annual report of Secretary of the Navy Wilbur.

Members of the House are already here, and in their comments today on the Wilbur report and predicted the ruling temper of the House will be to speed up all measures making for the financial relief of the Navy. Although the administration's policy of economy is expected to be carried out in the naval appropriation bill, members of Congress interpret the Wilbur report as indicative of the administration's wishes and are apt to press expenses elsewhere than on the fleet.

As to making appropriations for converting six antiquated capital ships into fleet auxiliaries, and for proceeding with construction of eight new cruisers, the House will be powerless to act until the Senate passes the authorization bill, known as H. R. 8637.

This bill was passed by the House and Senate last year, but by a last-minute motion for reconsideration by Senator William H. King, Democrat, Utah, just before adjournment at the last session.

Besides authorizing the construction of eight ocean cruisers, not to exceed \$11,000,000 each in cost, exclusive of armor plate, this bill provides for the expenditure of \$13,350,000 for equipping the six old cruisers with proper protection against submarines and air attacks, and with oil-burning engines. It also authorizes the construction of the river gunboats to cost \$700,000 each.

It is also probable that the important question of elevation of the grade of the Navy will be threshed out when this measure comes up.

"I never have believed that we have maintained the 5-5-3 ratio," said Representative Darrow, Republican, Pennsylvania, member of the Committee on Naval Affairs.

FULL STRENGTH NEEDED
"I am as much in favor of peace and the reduction of armaments as anyone, but any sane man knows it is poor business to let what we have go to waste. If we are going to have any ships at all we ought to have the best ships we are allowed under the terms of the arms treaty."

Representative Woodruff, Republican, Michigan, insisted that the United States is obligated to keep up to the limit of the 5-5-3 ratio "just as much as we owe it to the signatories of the treaty not to go above it."

Representative French, Republican, Idaho, chairman of the subcommittee of the Appropriations Committee, which is now conducting hearings on the naval bill, predicted a strong but cautious program.

The passage of the \$125,000,000 authorization bill by both houses of Congress would show the spirit of the Congress, he said. "I believe, however, that propaganda is apt to overreach the mark in both directions. I believe the program should go ahead as soon as possible to carry out the cruiser program, the gunboat replacement program in Chinese waters and the development of the fleet submarine. We are going slowly on the latter program. We are not going to build submarines to tie up. We want to be sure they are of the proper design. Of the three built several years ago, two are unfit for use with the fleet."

MINSTRELS TO USE FANCY COSTUMES

CLUB WILL BORROW FROM WARDROBE OF SCREEN SPECTACLES

Valley Forge Club, affiliated with the Valley Forge Masonic Lodge, will give a modernized version of a minstrel show, followed by a ball at the South Gate Temple, Thirty-third and Main streets, on Friday night.

Instead of the costumes of old-time minstrels, the cast of thirty performers will appear in costumes borrowed from the wardrobe of screen spectacles, including "Merry-go-Round," "The Hunchback of Notre Dame" and "The Phantom of the Opera." In the cast are many film men, including Norman Sprague, business manager at Universal City, and Charles Ray. Several film executives, including Julius Bernheim, general manager of the earth. Besides determining the exact size of the earth the scientists will measure the exact distance between various points—such, for instance, as between Washington and Paris. After making these measurements the scientists will wait for several years and then repeat the same process. This is to determine accurately whether the earth's dimensions shift or its shape alters.

FURNACE SUICIDE REFUTED
Sheatsley Family Physician Says Dead Woman Was Never Ill; Pastor's Flock Believes Murder

BY ORVILLE DWYER
(EXCLUSIVE DISPATCH)

COLUMBUS, O., Nov. 23.—The Rev. Charles V. Sheatsley's theory that his wife, Addie, 50 years of age, deliberately burned herself to death in the furnace of the Christ Lutheran Church parsonage in the suburbs of Bexley, was refuted today by Dr. C. H. Wells, the family physician for a number of years.

Dr. Wells would not express an opinion about the manner in which Mrs. Sheatsley died, but he indicated he could not reconcile himself to any theory of suicide.

Rev. Mr. Sheatsley thinks his wife, in a sudden fit of insanity, projected herself into the blazing coals that almost cremated her body.

Dr. Wells does not agree to that. He says Mrs. Sheatsley was an unusually healthy woman, that she was never ill a day in her life; in fact, that she was a woman of extraordinary balance, not given to fits of nerves as her husband has believed.

MURDER BELIEF
The physician's implied belief that the wife of his pastor and friend was murdered by the minister's congregation.

Rev. Mr. Sheatsley's flock at the service this morning, in a rousing vote, unanimously adopted a resolution in which the church went officially on record as believing that the pastor's wife must have been the victim of a brutal and horrible murder.

This resolution, drawn up by the trustees of the church, expressed sympathy for the minister and his family and confidence in him, and it ended with this plain statement: "We earnestly pray that the person, or persons, who did this horrible deed, be apprehended and punished. We pray to God for this."

George Spiedel, a divinity student at Capital University, the Lutheran college in Bexley, read this paper to the congregation and the entire flock arose when he took them to the altar by rising if they wished to adopt it. Mr. Spiedel this morning occupied the pulpit for Dr. Sheatsley. The latter was still in Canton, O., and was to return tomorrow or Tuesday.

OLD FRIENDS
Dr. Wells has known Mr. Sheatsley for thirty years, he said. He asserted he and the pastor of his church attended Capital University at the same time. He did not wish to be construed as criticizing the minister for allowing the theory that his wife deliberately burned herself to death.

"I think perhaps Dr. Sheatsley is groping for an explanation of the tragedy," Dr. Wells said. "I suppose his idea of how it must have been accomplished by his wife represents the only possible explanation he can see in his grief."

This explanation to which the minister has clung so tenaciously has been pronounced by the authorities working on the baffling death puzzle to be so absurd as to be almost childish.

RAIDS AFTERMATH OF GAME
Ten Arrested by Prohibition Officers in Descent on East Bay Resorts; Orgies Called Disgraceful

(EXCLUSIVE DISPATCH)

SAN FRANCISCO, Nov. 23.—Enthusiasm of Stanford and California football devotees was dimmed late Saturday night and early today when Federal and county officers swooped down upon four East Bay resorts and arrested ten persons, including two California students, who were jailed and charged with violating the prohibition law.

At two of the roadhouses, the Pergola in Alameda county, and Clyde Inn in Contra Costa county, the prohibition officials described the conditions as "wild orgies." Though they appeared upon the scene while the merriment and drinking were at its height, no resistance was met.

The places raided included: the Pergola, near Hayward; Castro Valley Inn, near Hayward; 1744 Seventh street, Oakland; Clyde Inn, near Concord.

At the Clyde Inn, a three-story resort, Prohibition Agent Clyde Laird of Contra Costa county found 100 persons, 50 of whom he said were intoxicated. Most of these were college students.

STUDENTS RAISE BAIL
Those students arrested at this resort were held in jail until noon today, when University of California students raised \$100 for the release of each student. They were charged with possession of liquor.

Prohibition officers packed and the manager rented rooms above to men and women for high prices.

"From a hill in the rear we could see the orgy that was going on. In these rooms men and women were drinking, gambling and carousing in an outrageous way. Rights of an unappealing nature, fights in which several men and women were engaged were seen, cursing was heard all over the place. The most disgraceful affair I have ever witnessed," declared Laird. "There was such a tremendous crowd that our party could not enter through the front door, but had to climb through a house, making the affair the most disorderly I have ever witnessed."

One of the arrested students told the police that he was arrested when he picked an empty bottle up. He admitted that much drinking and carousing had been done and that empty bottles and furniture had been thrown through the windows.

Dist. Atty. A. B. Tinsling of Contra Costa county stated today that the affair was "the most disgraceful in the history of the county, and tomorrow I will start abatement proceedings against the resort."

Laird planned the raid after attending the big game, where he overheard conversations by a student, who declared that "a wild party will be staged at Clyde Inn Saturday night." In one room seven men and three women were fighting with chairs and other pieces of furniture, resulting in one man's serious injury, he reported.

All of these accusations were denied by Charles Bernier, the manager, who asserts he saw nothing wrong, and if anything had been done, he would have reported it to the authorities.

The raid at the Pergola was made shortly after 3 a. m. this morning, when the party was at its wildest stage. It was stated in this and the other raids the Federal authorities, headed by Agent Oscar Olson, participated. Here, as at Clyde Inn, the place was packed, many were completely in-

CRIME SHRINKS WITH DRY LAW
League Against Alcoholism Makes Public Report

Total of Savings to States Set at \$200,000,000

Survey Based on Records of Three Hundred Cities

(BY A. P. MORT WIRE)

NEW YORK, Nov. 23.—Crime in the United States in proportion to the population has decreased since prohibition went into effect, according to a report made public today by the World League Against Alcoholism. Savings to the States as a result of the decrease in crime exceed the amount formerly paid as revenue by the liquor industry, the report sets forth, the savings being "conservatively estimated" at approximately \$200,000,000 annually.

The survey, which the league declares is the most extensive ever made of the subject, is based on figures from the police departments of 300 of the country's leading cities and the District of Columbia, every State except North Carolina and Oklahoma being represented. It covers the total number of arrests for all causes in the last four years prior to prohibition and the first four years of prohibition.

NUMBER OF ARRESTS
"It is true that the number of arrests of the dry period in the 300 cities is greater than the number for the 'wet,' it is stated in the report, 'but when analyzed in connection with the increase in population, which is \$9,000,000, the findings are contrary to the accepted belief that we are growing more criminal.'

The actual decrease in arrests for drunkenness since the Volstead act went into effect is 42.3 per cent for the 300 cities, or 1,000,000 less cases of drunkenness each year than there were in the 'wet' period for the whole nation. Where formerly drunk cases made up 12.5 per cent of the total arrests of the country, they have now been cut to 18.5 per cent.

"From 1912 to 1914 there was a yearly average of 55,946 persons arrested for all causes out of every 1,000,000 of population. The total for 300 cities was 1,754,015. During the first four years of prohibition, arrests for all causes were 2,040,700, or 55,539 per 1,000,000 population. The population in these cities has increased 5,000,000 during the four years. Applying this ratio of increase to the entire population we have a yearly total of nearly 10,000 less arrests during the 'dry' period than during the 'wet' period.

AUTO FACTOR TODAY
A failure to take into consideration all the surrounding circumstances is largely responsible for much that is about increased crime throughout the country. Police records show that the greatest single factor in arrests today is the automobile, especially in the big cities. The largest number of arrests are generally for violating of the traffic laws and ordinances.

"The savings to the States that can be pointed to directly in connection with our crime situation are higher today than they were before prohibition. The 1,000,000 less drunk, the arrests of each of which costs the public police department alone \$94, has resulted in savings of from \$95,000,000 to \$100,000,000 yearly. Adding to this the additional cost of trial and detention, this amount could be doubled and yet be a conservative estimate."

ROSECRANS GUSHER IS REPORTED
Maxwell Community Well Brought in Saturday With Flow of 3500 Barrels

Maxwell Community Well No. 3, on the property of the Superior Oil Company in the Rosecrans field on lower Main street, said to be the largest well in the new field, was reported to be gushing oil at the rate of 3500 barrels a day, yesterday.

Reports of the well, which was said to have been brought in Saturday, stated that the short-circuit tests showed the flow to be 3500 barrels a day of forty-two gravity oil with a sand content of 10 per cent. The new well shows 200 pounds pressure on a six and one-eighth inch flow line through 12-14 inch bore, the report stated.

Drilling for the well started September 12, and at a depth of 4524 feet, drillers ran into an eight and five-eighths-inch water string. At 4526 feet a six and one-quarter-inch oil string was released. The depth of the new well was given at 4524 feet, including 28 feet of sixty mesh preparation.

Field Summary Given on Wells at Signal Hill

The following field report from Signal Hill gives a summary of field work as it stood at the end of the week:

Harriman Jones No. 1, a Shell Crowned No. 1, 4150 feet, was a cement plug at 4150 feet; reported as being wet. Shell Company's Alamitos No. 17 has a cement plug at 4075 feet and preparing for completion. The following Shell wells are drilling ahead: Alamitos No. 26, 4400 feet; Alamitos No. 22, 4100 feet; Dole No. 1, 4450 feet; Kent No. 4, 3150 feet; Patton-Wilson No. 4, 4980 feet.

Wallow No. 1 of the Pan-American Petroleum Company is cemented at 4270 feet. McKoon No. 2, another Pan-American well, is drilling ahead at 4900 feet. Pan-American's Richardson No. 2, a redrill job, is down 4510 feet. The same company's Butler No. 1 is preparing to spud in.

SCALE COMPANY HEAD DIES
(EXCLUSIVE DISPATCH)

DETROIT, Nov. 23.—Mell Barnes, 63 years of age, president of the Barnes Scale Company and club man, died after an illness of four weeks in his home at 434 Putnam avenue.

DYNAMITER TO RESUME FIGHT

McNamee Will Try to Quash Indictments Today

for Trial to be Set if Motion is Denied

Believes State's Case "Iron Bound"

San Francisco, Nov. 23.—(Exclusive Dispatch.)—The dynamiter, John J. McNamee, today resumed his fight for liberty. He will try to quash the indictment against him today. The state's case is believed to be "iron bound."

McNamee, charged with the dynamiting of the bridge, is held in the county jail. He is being defended by Charles E. Cox, who is believed to be the best lawyer in the city. Cox is believed to be the best lawyer in the city. Cox is believed to be the best lawyer in the city.

WHITE FANG

by Jack London

A small number of white men lived in Fort Yukon. These men had been long in the country. They called themselves Sour-doughs, and took great pride in so classifying themselves. For other men, new to the land, they felt nothing but disdain. The men who came ashore from the steamers were newcomers. They were known as chechaquos, and they always witted at the application of the name. They made their bread with baking-powder. This was the inviolable distinction between them and the Sour-doughs, who, forsooth, made their bread from sour-dough because they had no baking-powder.

All of which is neither here nor there. The men in the fort disdained the newcomers and enjoyed seeing them come to grief. Especially did they enjoy the havoc worked among the newcomers by the dogs by White Fang and his disreputable gang. When a steamer arrived, the men of the fort made it a point always to come down to the bank to see the fun. They looked forward to it with as much anticipation as the Indian dogs, while they were not slow to appreciate the savage and crafty play by White Fang.

But there was one man among them who particularly enjoyed the sport. He would come running at the first sound of a steamer's whistle; and when the last light was over and White Fang and the pack had scattered, he would return slowly to the fort, his face heavy with regret. Sometimes, when a soft Southland dog went down, shrieking its death-cry under the fangs of the pack, this man would be unable to contain himself, and would leap into the air and cry out with delight. And always he had a sharp and covetous eye for White Fang.

This man was called "Beauty" by the other men of the fort. No one knew his first name, and in general he was known in the country as Beauty Smith. But he was anything save a beauty. To antithesis was due his name. He was pre-eminently unattractive. Nature had been signally with him. He was a small man to begin with; and upon his meager frame was deposited an even more strikingly meager head. Its apex might be likened to a point. In fact, in his boyhood before he had been named Beauty by his fellows, he had been called "Pinhead."

Backward, from the apex, his head slanted down to his neck; and forward, it slanted uncommonly to meet a low and remarkably wide forehead. Beginning here, as though regretting her promiscuity, Nature had spread his features with a lavish hand. His eyes were large, and between them was the distance of two eyes. His face, in relation to the rest of him, was prodigious. In order to discover the necessary area, Nature had given him an enormous prognathous jaw. It was wide and heavy, and protruded outward and down until it seemed to rest on his chest. Possibly this appearance was due to the weariness of the slender neck, unable properly to support so great a burden.

This jaw gave the impression of something lacking. Perhaps it was from excess, perhaps the jaw was too large. At any rate, it was a lie. Beauty Smith was known far and wide as the weakest of weaklings and the feeblest of feeblings. In short, Beauty Smith was a monstrosity, and the blame of it lay elsewhere than in his own nature. The clay of him had been so molded in the making. He did the cooking for the other men in the fort, the dish-washing and the drudgery. They did not despise him. Rather did they tolerate him in a broad human way, as one tolerates any creature evilly treated in the making. Also, they feared him. His cowardly rages made them dread a shot in the back or poison in their coffee. But somebody had to do the cooking, and whatever else his shortcomings, Beauty Smith could cook.

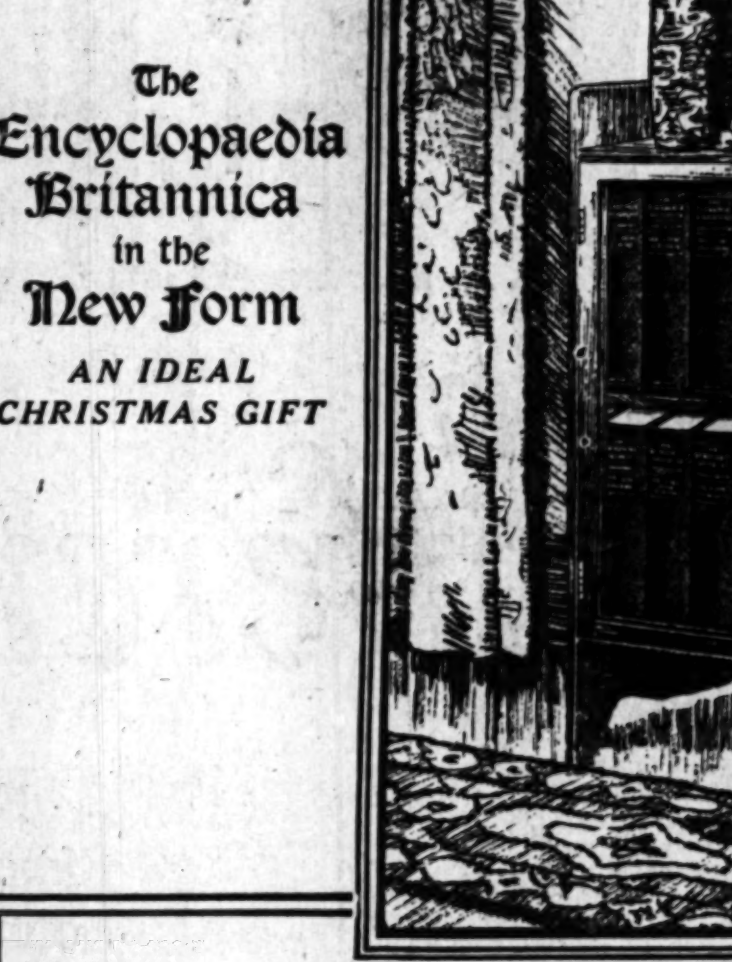

This was the man that looked at White Fang, delighted in his ferocious prowess, and desired to possess him. He made overtures to White Fang from the first. White Fang began by ignoring him. Later on, when the overtures became more insistent, White Fang bristled and bared his teeth and backed away. He did not like the man. The feel of him was bad. He sensed the evil in him, and feared the extended hand and the attempts at soft-spoken speech. Because of all this, he hated the man.

With the sim'lar creatures, good and bad are things simply understood. The good stands for all things that bring ease and satisfaction and success from pain. Therefore, the good is loved. The bad stands for all things that are fraught with discomfort, menace and hurt, and is hated accordingly. White Fang's fee for Beauty Smith was bad. From the man's distorted body and twisted mind, in covert ways, like slugs rising from malarial marshes, came emanations of the unhealthy within. Not by reasoning, not by the five senses alone, but by other and remoter and uncharted senses, came the feeling to White Fang that the man was odious with evil, pregnant with hurtfulness, and therefore a thing bad, and wisely to be hated.

White Fang was in Gray Beaver's camp when Beauty Smith first visited it. At the faint sound of his distant feet, before he came in sight, White Fang knew who was coming and began to bristle. He had been lying down in an abandon of comfort, but he arose quickly, and, as the man arrived, slid away in trix wolf-fashion to the edge of the camp. He did not know what they said, but he could see the man and Gray Beaver talking together. Once, the man pointed at him, and White Fang snarled back as though the hand were at descending upon him instead of being as it was, fifty feet away. The man laughed at this; and White Fang slipped away to the sheltering woods, his head turned to observe as he slipped softly over the ground.

The Encyclopaedia Britannica in the New Form

AN IDEAL CHRISTMAS GIFT

Only 3400 sets left
Act today and save 46%!
Encyclopaedia Britannica in the New Form

SINCE we first announced the Encyclopaedia Britannica in the New Form, less than three months ago, sales have reached the amazing figure of 16,600 sets.

It is evident, therefore, that the Britannica in the New Form is the most popular issue of this great work ever published.

Only 3400 sets now remain and orders are being received at the rate of 150 a day.

There is only one way to be certain of securing one of these sets with the free bookcase at the present remarkable saving. You must act at once.

As you know, the Britannica is the greatest library of human knowledge ever compiled. And if you act promptly you can obtain this wonderful work at the lowest price at which we have ever been able to offer the large page, large type Britannica.

The Encyclopaedia Britannica in the New Form is the newest and latest edition, complete and unabridged. Line for line, word for word, illustration for illustration, it is identical with the famous Cambridge issue, which sells for nearly twice as much.

It includes the latest volumes which cover the history of the World War and its momentous consequences, and also a full narrative of the tremendous advances made in industry, art, science, invention, etc.

You will have the Britannica some day—probably you have always desired it. Why postpone

Give the Britannica—the appreciated Christmas Gift

The Britannica makes an ideal Christmas gift. And here is a splendid opportunity! The Britannica in the New Form is offered at a price so reasonable that anyone can afford it.

You have just time enough before Christmas to send for the free booklet which tells all about it, and make your decision. But you must act at once.

This Handsome BOOKCASE FREE

The handsome bookcase on the left in dark mahogany finish, especially designed by Maple & Co. of London, will be given FREE with each set of the Britannica in the New Form while this offer lasts.

the day? Especially, since you can have one of these remaining sets sent to your home for a first payment of only \$5 and the balance may be paid in small payments, extending over 15 months.

Here are the facts about the Britannica in the New Form, and they explain its extraordinary success:

- 1—Beautifully large and clear type, printed from the large type Cambridge plates.
- 2—Saving of 46% as compared with the famous Cambridge issue.
- 3—Handsome appearance of the books, and the firm opaque paper, very thin, yet durable and easy to turn.
- 4—The beautiful bookcase in dark mahogany finish, made especially for the New Form, free.

You must act promptly!

If you are at all interested in obtaining one of these sets of the Britannica in the New Form at a saving of nearly one-half, do not delay.

Remember that there are but 3400 sets of this printing still available. These will not last many days. Your opportunity is here—seize it before it is too late.

Write for free booklet

It tells all about the Encyclopaedia Britannica in the New Form, reproduces a number of specimen pages (many in color), gives the names and shows the photographs of a number of contributors, explains the easy terms of payment and tells the fascinating story of how our experts made possible such an amazing reduction in price—56 pages of interesting reading.

MEXICO MAKES NEW FIELD GUN

Light, Rapid-Fire Weapon is Named for Gomez

Solves Artillery Problems, Experts Declare

Twenty Shots a Minute is Inventor's Claim

(BY CABLE-REUTERS DESPATCH)
MEXICO CITY, Nov. 23.—At the National Arsenal of the Artillery Department, Ministry of War, the construction has recently been completed of a seventy-five millimeter field gun, which has been christened "Arnoldo Gomez" in honor of the Federal general in charge of the Mexico City garrison and military operations in the Valley of Mexico during the recent De la Huerta revolution.

Although the gun was manufactured in a government department, it is not strictly speaking a national product. Gen. Gomez was the leading spirit in designing the gun, personally paid all the preliminary expenses and for such reasons the new gun has been christened with his name. However, a recent order by President Obregon is to the effect that the armaments of the technical engineers for testing the piece, which will shortly be effected, shall be borne by the government.

FIRST MEXICAN GUN
This is the first piece of artillery designed exclusively by Mexican officers and turned out entirely in the government artillery workshop.

The great advantage claimed for the new gun is its extreme lightness, for it is stated that it will be possible to transport it even by airplane—a valuable asset in artillery work in Mexico owing to the hilly nature of practically the whole of the republic—and it is further claimed that for near trench warfare the gun will be invaluable, as it is capable of discharging twenty shots per minute. Further, the gun needs no emplacement, and by special invention of its designers, it can be made to fire in any direction without change of stability.

As the artillery shops, dependencies of the Mexican Ministry of War, are devoid of up-to-date machinery, the new gun has been turned out almost entirely by hand labor, all parts having been turned by Mexican employees in the artillery shops themselves, but its precision is claimed to be well-nigh perfect.

DEAD MOTHER'S WISH IS UPHELD

Court Refuses to Remove Girls from Orphanage

Grandfather Asked Custody by Legal Process

Judge Cites Maternal Love as Reason for Ruling

(SPECIAL DESPATCH)
LOUISVILLE, Ky., Nov. 23.—A dying mother's wish to bring up her children in the faith she had adopted was the controlling spirit of opinion rendered by Judge Henry E. Barker, when he denied Joseph G. Harrison, 47 years of age, railroad conductor on the Louisville and Nashville Railroad, the custody of his granddaughters, Margaret Virginia and Catherine Nolan Harrison, 8 and 11 years of age, respectively.

The orphans are now wards of the St. Vincent's Orphan Asylum, where they were placed at the request of the mother, Mrs. Stella Nolan Harrison, who died at Waverly Hill Sanatorium eight months ago. All requirements regarding the placing of the children in the orphanage had been met. However, the grandfather in a habeas corpus proceeding instituted before Judge Barker, sought to remove them from the institution of Henry Farver Harrison, brother of the children, died four years ago.

MOTHER'S WISHES
"It is not altogether by the wax and parchment of courts and lawyers that human destiny is controlled and human souls disposed of," Judge Barker said in his opinion. "But there is another phase of this case that I dare not overlook—the wishes of the dead mother."

She had traveled many miles to spend a few weeks with her mother. She referred to her as "my aged mother, who is growing old and can no longer keep house as she used to keep it," adding with a trace of tears, "I cannot hope to have my mother very long now, so I let Jack and the boys manage the best they can—this is a duty that soon I may be unable to perform. What was six years ago. Three weeks ago the 'aged mother' had died out of all reason, with many frills and smiles, was one of the gayest souls on the Kahr Korn Karnival midway, dancing nimbly as a hand played jass. She is a bride—Eldorado Times.

LOVE FOR HER OWN

"In all my experience I have never known a human mother desert her child. The world may scorn her son, but she loves him; friends may forsake him, but she clings to him without reference to his desert or guilt. The loving mother will follow her drunken boy down, down to the slime of the gutter and will lift him, bestial that he is, to her breaking heart and woo him back to love and life, to hope and heaven."

"With trembling limbs she will follow her guilty boy down the steps of the dungeon and point him, through the grated bars of his window, to the star of hope on the horizon. With breaking heart she will follow her convicted son up the steps of the gallows and bid him think of Him who 2000 years ago said to the penitent criminal: 'This day thou shalt be with Me in paradise.'"

THE AGED MOTHER
She had traveled many miles to spend a few weeks with her mother. She referred to her as "my aged mother, who is growing old and can no longer keep house as she used to keep it," adding with a trace of tears, "I cannot hope to have my mother very long now, so I let Jack and the boys manage the best they can—this is a duty that soon I may be unable to perform. What was six years ago. Three weeks ago the 'aged mother' had died out of all reason, with many frills and smiles, was one of the gayest souls on the Kahr Korn Karnival midway, dancing nimbly as a hand played jass. She is a bride—Eldorado Times.

The greatest advantage your children can have

THESE children have The Book of Knowledge in their home. Their teacher will tell you that when she wants a clear and intelligent answer, she can be sure of it from either of them. They have made a long start in the race for knowledge.

What makes an echo?
Why has water no taste?
What makes us sneeze?
Why do we have ten fingers?
Can we think without words?

The Book of Knowledge answers in plain and simple language the questions children ask.

Do you know how The BOOK of KNOWLEDGE makes children's learning easy?

Curiosity is the beginning of all knowledge. Do you know any subject about which your children have not asked you a dozen questions? Let them ask as many as they like and be sure to answer them correctly, because if curiosity is discouraged, a bright boy or girl may become stupid or indifferent.

They Learn Without Effort

The Book of Knowledge is the most natural method of helping children to educate themselves because it answers their own questions clearly and thoroughly and then carries them on into other fields of knowledge to which their questions lead. So captivating is this great and original work that the child absorbs without effort the profound truths and great facts of the world

of knowledge while reading for pleasure and looking at the thousands of striking educational pictures.

10,000 Educational Pictures

There are sixteen great departments in The Book of Knowledge—nature, science, history, biography, art, poetry, literature, etc. They contain the important, interesting and authentic knowledge of the world. The Book of Knowledge draws out the mental powers. It quickens and stimulates interest. There are 10,000 illustrations in The Book of Knowledge, many in natural colors. They are a brilliant picture gallery of what the world is doing. The lessons they teach can never be forgotten. They make learning the delight that it ought to be.

Send for this free book

What would The Book of Knowledge do for your boy or girl? The way the children learn from it without realizing they are learning, you can see for yourself in the interesting booklet of sample pages and illustrations that we invite you to have free. It shows how the children, while absorbed in enjoyment of the book are at the same time learning fact after fact from the pictures and the delightfully informal descriptions.

Every parent who reads this paper is welcome to a copy of this booklet. Merely mail the coupon today and receive your copy free with our compliments.

HOW TO ACQUIRE COMMON STOCKS WITH LEAST RISK

Expanding industrial activity is usually accompanied by corresponding activity in common stocks.

An ideal way to share in profits through common stock is to purchase sound preferred stocks which are accompanied by common.

We are recommending several high-grade preferred stocks which are accompanied by common, and which return incomes of 7 to 8% Ask for list.

ST. ANTHONY OIL RARE MINERALS, TO START WELL METALLURGY, CHEMISTRY

New Company to Test Tract Near Maricopa

Preparations Under Way to Begin Drilling

Belridge is Building Road to Large Virgin Area

REUTERS (DISPATCH)

MARICOPA, Nov. 23.—The St. Anthony Oil Company, one of the new organizations now being perfected in the West Side fields, is making active preparations for drilling on what appears to be a good piece of government land on Section 10, 11-24, in the Sunset district, about 10 miles from Maricopa. The property is located in the southern end of the Hovey Hills and is about 10 miles from the new well being drilled by the Fresno Humble Oil Company on Section 14, 11-24, Lambey for derrick, casing and drilling needs is now being hauled to the hole in the near future.

The St. Anthony organization is made up almost entirely of Taft and West Side oil field enthusiasts. It is headed by Archie Mayes, P. J. Reardon, H. H. Bell and Munding Brothers. Charles Munding is in charge of operations as superintendent.

With plans made for the development of a large area of virgin territory on the Hovey Hills, the Belridge Oil Company has started building a road four miles in length to haul materials to the property, which is located on Section 11, 24 and Section 10, 24. The company will begin immediately the drilling of two new wells as the result of a government permit issued several days ago to Thomas H. T. Purman and Stone Hovey.

The last in particular interest in that it is aimed to develop the vastness of formation, which is expected to be found at about 300 feet. Geologist Harry Johnson has been making a study of this formation.

The Belridge Oil Company is reported to have completed its No. 1 well on Section 24, 10-24, in the Elk Hills with 2200 barrels of oil daily with a gravity of 19.7 deg. The well was completed at a depth of 1888 feet. It is in the Naval Reserve No. 1, and offends the No. 4 well of the Pacific Oil Company on Section 21, 20-24. The company is also taking a test of its No. 2 well on Section 12, 20-24 for water shut-off. The depth is 2760 feet.

NEW TRACT PURCHASED BY GENERAL

Company Pays \$17,000 for 320-Acre Tract in Lost Hills Region

REUTERS (DISPATCH)

BAKERSFIELD, Nov. 23.—For a consideration of \$17,000, the General Petroleum Corporation has purchased outright 320 acres of potential oil land in the vicinity of Blackwell's Corner, six miles west of Lost Hills, according to documents filed with the County Recorder. The land described as the north half of Section 12, 27-18, was purchased from R. V. and Oletha Ellis.

At present the Standard Oil Company is testing the area in which this land is located, according to reports.

Another purchase of potential oil land was disclosed with the filing of a transfer from Coral Wreath Harrover of Madera to James G. Leavy of Los Angeles. The purchase, entailing a consideration of \$10,500, included the northeast quarter of Section 20, 27-18, located in the Goose Lake district, about ten miles west of Wasco.

A lease to 120 acres on Section 12, 20-22, in the Wood Patch district has been acquired by the Wonder Oil Company from H. J. Shurtz for a consideration of \$25 an acre cash bonus and one-eighth oil royalty. Drilling must begin within three years.

For a consideration of \$20,000, E. G. Lewis of Atascadero has been granted the exclusive right to drill for oil on land located about two miles east of a house by R. E. Havenstrite. The land is described as the east half of the northeast quarter of the northeast quarter of Section 17, 11-23.

PREPARING TO DRILL

Marland Oil Establishes Camp in New Kern Field

REUTERS (DISPATCH)

HANFORD, Nov. 23.—The Marland Oil Company has established a camp on Section 12, 22-17, in the southwestern part of Kings county, which is presumed to be its permanent camp, and is installing equipment at its well, Elliott No. 1.

After drilling to a depth of 800 feet with a standard rig, the Marland company installed a rotary outfit and is now at a depth of 1000 feet. The well is owned by the General Petroleum Corporation and the Marland company are working together in the development of this new field, which is known as the Kettleman Hills district.

LARGER QUICKSILVER PRODUCTION IN VIEW

REUTERS (DISPATCH)

TERLINGUA (Tex.), Nov. 23.—It is expected that the quicksilver production of the Terlingua district will be largely increased as soon as the gas furnace of E. A. Waldron, at his group of eight claims, is finished. Considerable development work has been done, uncovering a large body of rich cinnabar ore. The quicksilver mine of the Chisos Mining Company near here continues to be a large producer. It is stated that several of the older mines which were closed down a few years ago are to be reopened.

WEEKLY STOCK RANGE

The Public Service Department of the Merchants National Bank of Los Angeles issues the following table of the range of prices on the New York stock exchange for the week ending November 22, together with the net changes as compared with the close of the preceding week. (+ Gain, - Loss.)

Magistrate Present

DOWNY, Nov. 2.—Question: Under separate cover I am sending you a rock; please analyze it and publish results.

Answer: The sample is of hornblende and hornblende gneiss; pyroxene more or less present with biotite (black mica) of the mining boys (the hills) and muscovite (potash mica).

Not Fluorite

PEACH SPRINGS (Ariz.) Nov. 3.—Q: I am sending you two samples. Please let me know if they are fluorite and of any value.

A: Both samples are calcite (crystallized lime carbonate).

Of Doubtful Value

YUMA (Ariz.) Nov. 3.—Q: Under separate cover please send me a rock sample. I wish to know if there are any commercial values in it.

A: The sample is a shaly and slightly bituminous one. It contains some quartzite pebbles with iron-manganese more or less found. Traces of iron silicate in the shale. Your second lot of samples are altered rock; now easily chlorite.

Probably Specimen

LOS ANGELES, Nov. 3.—Q: Kindly advise me what these few pieces of stone are. Have they any commercial value? If they are good give the price of them and put me in touch with buyers.

A: There is not a crystal in any of the small chips. They are No. 7 in the scale of hardness and scratch glass. Specimen 1 is a manganese-aluminum garnet. If you will kindly mail a small piece of the rock carrying an unbroken crystal I will be a pleasure to advise you further.

Three Samples

NEEDLES, Nov. 10.—Q: I am mailing you a package of three specimens for classification, please send me a sample of gold and silver, but the values are not enough to pay to work. I am mailing you samples to learn if they carry other minerals. The specimens were taken from the dumps of an old mine in San Bernardino county. Your friend, C.

A: Sample No. 1 is hornblende rock; pyroxene, and traces of zinc present. Qualitative analyses show that the rocks of No. 2 carry iron oxides with more or less Pyrolusite (manganese dioxide) of rather low grade. No. 3 is the rock Epidote; pyrite trace.

Black Sand

OCEAN BEACH, Nov. 10.—Q: Please test the sample of sand for minerals present. I have seen sand in the Rogue River, Oregon, looking similar to this. I am mailing you samples to learn if they carry other minerals. The specimens were taken from the dumps of an old mine in San Bernardino county. Your friend, C.

A: The sample is a little monzonite sand; your sample carries no monzonite. There is a lot of quartz in the specimen with some of it yellowish in color (or variety citrine). Magnetite found with limonite. Free gold abundant and negative reaction for platinum.

Chiefly Orthoclase

LOS ANGELES (Nov.) Nov. 11.—Q: I am sending you a sample of what I think is feldspar, which I found in California about eight miles from Needles. Please let me know if it is of commercial value. Thanking you for past favors.

A: The sample contains feldspar in good percentage. It is mixed with some quartz, however, but the rocks of No. 2 carry iron oxides with more or less Pyrolusite (manganese dioxide) of rather low grade. No. 3 is the rock Epidote; pyrite trace.

Strontium Not Present

LOS ANGELES, Nov. 11.—Q: Please classify this specimen. Does it contain strontium.

A: The sample is crystallized calcite (lime carbonate) striated longitudinally.

Cyanite (Kyanite)

BEATTY (Nov.) Nov. 11.—Q: Once again I am seeking information through your helpful department about the sought-for "illimanite," and am enclosing separate cover two samples marked Nos. 1 and 2. Will you kindly advise me the name of the "illimanite" that it is? The mixture of the two samples makes a difference in the value, if any? The two samples came from the same locality. I located this along a lead 500 feet in length where it crops on the surface and is from two to ten inches big. It is found with a quartzite matrix, very bright and glassy. Hanging wall is decomposed brownish mica, and on the foot wall is a substance resembling graphite. This comes from the Chloride Cliff, near Death Valley, or as you will know, near the Keane Wonder mine, Inyo county, California. Thanking you for past favors.

A: There is not a trace of illimanite in either of the two samples. It is to be noted that sillimanite and cyanite differ but little in chemical formulae; both being mixtures of silica and alumina. Cyanite is infusible before the blowpipe, but becomes a soft, glassy mass. Sillimanite treated with the flame is unaltered. The color of cyanite is usually pale-blue, also white. Sillimanite is of dark gray color, passing to clove brown. The blue of cyanite is of a deeper tint along the middle of the prism. The cleavage of sillimanite is perfect and brilliant, while that of cyanite is difficult to obtain transversely to the axis of the prism, but it is easily made parallel to the lateral planes. The fiber you refer to is altered cyanite and it is not a delicate substance. Your variety of mineral should meet with favor in porcelain and enamel manufacture, and why not?

Uranium Abundant

TUJUNGA, Nov. 13.—Q: I am sending you a sample of red rock taken from a locality 100 miles from Needles. My mining book describes it as platinum ore. Please analyze the mineral and give me your report through the Times.

A: The sample is of pyrolusite coating (a mixture of manganese and oxygen) and stains the fingers blackish. The coating is embedded with quartz and rhodonite.

Platinum Abundant

LYMAN (Utah) Nov. 14.—Q: I am sending you samples of ore taken from a locality 100 miles from Needles. My mining book describes it as platinum ore. Please analyze the mineral and give me your report through the Times.

A: The sample is of pyrolusite coating (a mixture of manganese and oxygen) and stains the fingers blackish. The coating is embedded with quartz and rhodonite.

DRILLING CONCERN IS SUED BY OIL COMPANY

REUTERS (DISPATCH)

WELL INDICATES HUGE OIL FIELD

Gas Pressure Heavy in Sand Near Bakersfield

General Constructs Tanks After Good Showing

Marland Company Drilling Near Wildcat Hole

REUTERS (DISPATCH)

BAKERSFIELD, Nov. 23.—Indications that one of the largest oil fields of the State will be brought in soon follows the announcement that the General Petroleum Corporation, Kettleman Hills No. 1 well has struck oil sand and the gas pressure in the well at present is sufficient to make the drilling crew expect large production when the well is finally brought in.

The oil sand was found at a depth of 1400 feet, it is reported. The showing is of such character as to warrant the immediate construction of two 3000-barrel storage tanks, with ground leveled for four more. While the tanks are being erected work is being rushed on a six-inch pipe line from the well to the Reef pump station of the Associated Pipe Line Company, a distance of four miles.

The hole was recently cemented at a depth of 1213 feet when it was drilled through the gas pressure was so strong that it was difficult for the crew to keep the tools in the well. It is said.

FAITH IN TERRITORY

Another indication of faith in the territory is seen in the activity of the Marland Oil Company, which is drilling near the General's wildcat hole. The Marland well is known as Elliott No. 1. The company started its drilling with a rotary outfit, the well having been previously drilled to 100 feet for government assessment requirements. The drill is now down over 400 feet. The Marland is establishing a permanent camp and is going ahead with building activity as though a long drilling campaign lay ahead.

The bringing in of the General Petroleum well would prove up more than 2000 acres held by this company's success in its large holdings in the Coalinga field. An equal amount would be proved up by the Marland, the Pacific Oil Company and other interests.

DRILLING WELL

The Chandler-Candfield Midway Oil Company has begun drilling a new well in the Midway. It is the No. 24, located on Section 23, 21-22.

During the past week the Standard Oil Company spudded in two new holes; the No. 41, on Section 24, 20-24 in the Elk Hills, and No. 42, on Section 2, 11-24 in the Sunset district.

George W. Shearer, a Kern county operator, has spudded in a new well in Kings county on Section 13, 23-19.

Two repair jobs were reported last week for Kern county, and one in the Coalinga field, all of them being owned by the Pacific Oil Company. One is the No. 21, Section 15, 22-24 in the Midway. Another is the No. 103, Section 30, 20-24 in the Elk Hills and the Coalinga well in the No. 1, Section 23, 20-24.

Tests for water shut-off in Kern numbered six two each in the Elk Hills, Midway and Sunset fields.

Gold Dust Mine to be Developed for Richer Ore

REUTERS (DISPATCH)

KINGMAN (Ariz.) Nov. 23.—An initial shipment of twenty-five tons of gold dust property owned by the Kingman Gold Dust Mine, Inc., is reported to have returned \$30 a ton. Gold dust is one of the old-time products of the district, lying nearly a mile south of the camp's business section.

It is under supervision of Charles Waters, once superintendent of the Tom Reed Mine, who drove the feet from the main shaft on the 200 level to a point where two veins converge and where rich ground is believed to lie.

Excavation has been started for the mill of the Paymaster mine, near Mineral Park, and erection is to start soon, George Whitman, an experienced local miner, will be in charge of development.

OIL CLAIMS FILED

Tracts Selected for Prospecting Located in Midway Field

REUTERS (DISPATCH)

BAKERSFIELD, Nov. 23.—Several West Side residents have filed claims on potential oil land in the Midway oil fields, according to the records filed here. The locations include Claude Moore, W. B. Summers, R. D. Morris, Chester Johnson, James Forbes, Eunice Engleke, M. J. Davis, Max Weeks, A. W. Utt, E. M. Weldon, P. M. Jessup, Clinton Johnston, W. S. Evinger and others.

The locations include the Clinton, Tom Morris and Lake oil claims in Section 6, 23-24; Louis Gusher, Buena Vista and Cabin claims in Section 3, 23-24; Ark Argus, Relief and Dr. Lake claims in Section 32, 31-24; Bird Mutual White Oaks and Aereo claims in Section 4, 22-24; Doran claims in Section 20, 21-24; Dwyer claims in Section 20, 21-24; Beverly in Section 2, 20-24; Bear in Section 24, 21-24.

PROSPECTOR DRILLING

Permit in Kern Field Through by Owner to be Valuable

HOLDING a government permit which he thought of little value, George H. Bakersfield has sold the possibility of becoming a millionaire over night as a result of the activities of the General Petroleum Corporation in Kettleman Hills district of Kings county.

Stirred to action by the prospect of the General Petroleum well coming in, he has commenced prospecting permit located on Section 18, 23-19, about three miles northwest of the operations of the big company.

\$32,000 Fresno County, California Road District Improvement No. 6% Gold Bonds

Dated September 11, 1924. Denominations \$1000 and \$500. Principal and semi-annual interest (January and July 24th) payable at the office of the County Treasurer at Fresno County.

Exempt from Personal Property Taxes and Federal Income Taxes

Financial Statement of District

Assessed value of property \$ 91,370.00
Appraised value of property 273,820.00
Bonded debt, this issue only 32,000.00
Average debt per acre \$ 1.25
Average appraised value per acre \$ 4.80

THIS IMPROVEMENT consists of paving in the College Park Tract, immediately adjoining the City of Fresno, bounded by Shields Avenue, Moroa Avenue, Glen Avenue and Courtland Avenue.

THE DISTRICT is a well-improved section, just outside the city limits, north of the State College and just inside Fresno High School, and adjoining the most popular and rapidly growing and highly improved residence section of the city.

SECURITY: These bonds are issued by the County of Fresno under the 1907 Act, which provides that the County Supervisors shall annually levy upon all the land within the District an ad valorem tax, clearly sufficient to pay the principal and interest of the bonds. It further provides for a transfer of money from other county funds to make up deficits, if any, in the Road District Fund.

The underlying cause of the great wealth of Fresno County is one which is particularly interesting to investors in Road Improvement Bonds because it is a basic one—the richness of the soil itself. Fresno County is one of the wealthiest counties in the United States; her soil is recognized as one of the most alluvial of the world.

What Happened to Faith, Hope and Charity?

BACK in the old Pueblo days, religion, poetry and piety played a big part in the life of the people of this fair city.

And of these three—piety—perhaps was the impelling force that caused the founders of the city to name three of the streets Faith, Hope and Charity.

But soon after the influx of English-speaking immigrants, the folks who lived on Faith and Charity—the streets, we mean—did not view the question of street names in the same light as the earlier Spanish settlers. The "gringos" couldn't quite get the idea of living on Faith or residing on Charity—as a movement was started which resulted in these streets being renamed Grand Avenue and Flower Street.

If some of the old-timers could return today and see the startling changes that have been wrought on these streets they would not be inclined to believe their eyes.

Lots back in the days of Faith, Hope and Charity were usually acres in extent—commanding several dollars an acre less than the cost of one "front-lot" at present day values.

It is these constant changes—these constant changes—that make Los Angeles real estate—especially by INSIDE real estate and real estate on well-travelled TRAFFIC LANES—PAYING INVESTMENTS.

Get an interesting summary of the NEW plan of investment for those seeking SAFETY and an INCOME—plus SPECULATIVE PROFITS from the future growth of Los Angeles. Use the Coupon below.

From Los Angeles Basin Fields

TWO ROSECRANS HOLES WATCHED

HUGE GASSER IN FLAMES

Interest Centers in Athens and Maxwell Areas

Boom Starts in One Instance; New Derricks Built

Other Well Likely to Go on Production Today

Interest in the Rosecrans field may be said to have two centers at the present time. One of these is in the northwest portion, known as the Athens Area, where E. J. Miller's Athens No. 1 lately started a boom that has already resulted in the building of a half dozen derricks, with others to come.

The second center is in the southeastern district, generally described as the Maxwell area, where the Superior Oil Company is testing out a new geological theory in its Maxwell No. 3.

The latter well finished running oil string yesterday and is likely to go on production early today. Bottom of the hole is at 4525 feet, the eight-inch water string being set at 4530 feet, where a water shut-off was reported.

ALL OIL RAND
The space between the shoe of the casing and the bottom of the hole is said to be practically all oil sand, with no water so far as is known. If this is true, Maxwell No. 3 has the largest producing zone in the field and should make a good well—perhaps as good as the Union Oil Company's Rosecrans No. 4.

The interesting feature of the Maxwell No. 3 is that it is drilled at a higher point, stratigraphically, than any other well in the field, setting its water string thirty feet higher than the casing was set in Maxwell No. 1, the first successful well in this area.

The Miller-Marian wells attempted a shut-off even higher than the Maxwell No. 3, but test results, which are taken by geologists as an indication that the shoe of the Maxwell No. 3 is about as high as it is safe to set casing.

PECULIAR SITUATION
Another interesting fact is that through the Maxwell No. 3 is located on the structure than the Maxwell No. 1, the former has not had as much water sands reported by the latter.

This condition presents a peculiar geological situation which, according to geologists, has no parallel in any other California field. These are the reasons why the test of Maxwell No. 3 is being watched with great interest by Rosecrans operators.

A third area of interest is the western sector, where the Union Oil Company and General Petroleum Corporation are drilling their deep tests. The Union No. 1 is running six-inch casing to 3800 feet and is conceded to have a good chance to make an oil well, although if it does it will be the first time in oil well history that a shut-off was effected at such an extreme depth. General Petroleum apparently is not satisfied with the showings in its Amestey well, and is drilling ahead at 6050 feet.

ORE SHAFT FOR VERDE FIELD HIGH NEAR BASE
Central Has Forty Feet to Go; Several Mines of Jerome to be Explored

VERDE (Ariz.) Nov. 23.—Verde Central has only about forty feet more to sink to reach the 1400 feet of depth at which the new shaft will be bottomed. While several bodies of ore were struck in sinking below the 1000 level of the incline shaft, there is assurance that cross-cutting from the new shaft for relatively short distances will reach the main deposits that continue from the well-developed workings on the old 800 and 1000 levels.

The new surface plant is being placed on the Verde Jerome, which lies just above the Verde Central. Under the management of W. R. Gehring, the property is to be explored at depth. Necessary funds have been provided through a contract made with St. Louis brokers, who have listed the stock on the Boston curb.

Ore in large quantities and of good grade is reported to have been cut in the new Ventura workings of the United Verde Copper Company, reached from the Calumet and Jerome upper tunnel. Belief is expressed that the operations are cutting the top of a great ore body.

During the past week, expert examination has been made of the copper Chief property and other mines in the southern part of the district, with consideration of possible renewal of long-suspended activity.

MASSACRES BY REDS IN GEORGIA DESCRIBED
WEST COLUMBIA (Tex.) Nov. 23.—Prince David Midway of the title Republic of Georgia, who arrived in Houston a few days ago from Europe, is here enjoying a season of duck-shooting on the ranch of Mike Hogg, son of the late Gov. Hogg. Accompanying him is the Count de la Roche-Caucas of Paris.

Stories of wholesale massacres of patriotic citizens of Georgia by the soviet authorities who occupy the republic with an army of 50,000 men, were told by Prince David. Methods of cold-blooded butchery are being resorted to by the Red government to force the little state, which is of much strategic and economic value, into submission, he said.

He declared that since 1919 there have been at least 20,000 Georgians slaughtered without trial. A shipload of natives was taken out on the Caspian Sea and the vessel sunk with none rescued. Others are called to their deaths and shot down.

Fire Destroying 20,000,000 Cubic Feet of Fuel Every Day at Canadian Well

(EXCLUSIVE DISPATCH)

CALGARY (Alta.) Nov. 23.—Alberta's biggest "wet gasser," Royalite Well No. 4 of the Imperial Oil Company, is blazing furiously and 20,000,000 cubic feet of gas goes up in flames every twenty-four hours.

UPPER LEVEL PRODUCTION TO BE TRIED

Attempts to be Made at Once on Strong No. 2 by Whitley Company

RIDEOUT HEIGHTS, Nov. 23.—Attempts at production in the upper levels of the Strong No. 2 well are to be made at once by the Whitley Oil and Refining Company.

The well, which is located on the outskirts of what is believed to be the producing area of the field, is 2400 feet from the O'Donnell No. 6. Attempts to obtain production at 4900 feet met with failure. Drillers believe that sands passed through near 4300 feet may be productive.

The Standard Oil Company, drilling the Patton No. 1 well in the western section of the field, has reached 5200 feet and so far no oil has been located. The showings for oil at that depth are meager.

The Associated Oil Company, drilling the Patton No. 1 well, has reached 3740 feet and is fishing in hard sand for a bit. This well is but a short distance from the original well of the field. The Mohawk Oil Company is drilling in hard sand in its Denny No. 1 well which has reached 3400 feet. The Pan-American Petroleum Company's Jernum well is testing at 3200 feet.

A fishing job has been held up the activity on the California Royalite Company well which is being drilled by the Taylor Bros. The well has been drilled to 3740 feet. The Petroleum Midway Company has only one well drilling on the property taken over from James O'Donnell. The Fellsier well is idle at 4450 feet, while the Rideout-Holmes well No. 1 is fishing at 4620 feet. The Seward well No. 1 is drilling in hard sand at 4650 feet, while the Witte-Vining well is idle at 4650 feet.

In the North Whittier field, the Superior Oil Company has failed to secure production as yet in the Andrea No. 1-A which has been drilled to 3620 feet. This hole was in a formation a few weeks ago which operators believed to be producing strata, but tests failed to obtain oil. The No. 1 well on that property is down 1100 feet.

The idea that there might be a connection between the Rideout-Holmes well and the Santa Fe Springs field has begun to fade. The Standard Oil Company's deep test on the Culp lease reached a great depth with no showings for oil. The well is now down 5110 feet and so far has failed to show anything of value.

INTEREST IN NEW MEXICO FIELD HIGH
Standard of California Hits Heavy Gas Flow in Gallup District

GALLUP (N. M.) Nov. 23.—Considerable interest has been shown in parts of Socorro and Valencia counties, N. M., where drilling in the Red Lake district, has now reached 2000 feet, and expects to reach the upper series of the Pennsylvanias at around 3200 feet.

The Standard of California, drilling on the Piora ranch, has encountered a very heavy gas flow, and water ceased off and drilling below 1600 feet.

The Union Oil Company of California are drilling on the Bartlett ranch near Vermejo, and have encountered sulphur water at about 3200 feet.

The Eureka well, near Haton, is drilling below 1750 feet, but making slow progress on account of the hard formation which has been found.

A new well is to be spudded in this week on Section 4, 22S-27E, by Miller et al. of Roswell. The Bonanza-Texas Company of Pittsburg, Pa., have contracted to drill a test in T. 15, S. 17, E. on the Manning dome, where they have secured some 8,000 acres.

The Fort Jumper Oil Company has announced that it will drill a well on charges of performing an illegal operation on Miss Winifred Miller, 21 years of age. King, with Robert Moonshower, 21, was indicted by the grand jury on testimony of the young woman and her parents.

PHYSICIAN IS ARRESTED
INDIANAPOLIS, Nov. 23.—Dr. Milo King, 50 years of age, Mayor of Rochester, was arrested today on charges of performing an illegal operation on Miss Winifred Miller, 21 years of age. King, with Robert Moonshower, 21, was indicted by the grand jury on testimony of the young woman and her parents.

HEAVY PRESSURE

The well registered a rock pressure of 1200 pounds and a daily flow of 25,000,000 feet when it was first capped. A control valve was placed on the well, but the casing was insecurely anchored and the force of the gas cracked the top of the control-head but many feet of the casing below the ground.

During the week the well was out of the wreckage, it is believed that a small piece of metal blown from the well struck the derrick, causing a spark which ignited the gas. It was by a lucky freak of fortune that none of the drilling crew was near the well when the accident occurred for the explosion caused a blast that shook farm houses for miles and would have been deadly over a large radius.

FIGHT FLAMES
Efforts are now being made to get the well under control again by the use of steam. Six boilers have been installed and trenches are being run to the cellar of the well.

Gas is pouring out of a portion of the casing which is some thirty feet above the mouth of the well, and so great is the pressure that it does not blossom in flame until twelve or thirteen feet from the top of the casing. Leakage in the shoe also caused another blaze at the actual mouth of the well.

ORE VEIN IN KELLY MINE EXPANDING
Discovery by California Rand Seen as Best Ever Opened on Property

RANDSBURG, Nov. 23.—The remarkable ore body recently opened on the tenth and eleventh levels of the Kelly Mine of the California Rand Company continues to develop splendidly, according to reports, with ore sampling \$25 a ton broken across a width of twenty-five feet. The vein is reported to be one of the best ever opened in this mine, which, for years has been the largest silver-gold producer of California and has paid millions in dividends. The new vein carries a high gold content besides bonanza silver values.

The California Rand is producing more than \$125,000 a month with the mill crushing 300 tons daily. High-grade ore is coming from the older workings in addition to the new areas, with the reserves reported sufficiently large to insure steady operation of the property for years. Recent rains and snows in the high mountains have relieved the water shortage and paved the way for production at full capacity.

Drifting is proceeding from the bottom of the mine in the Belcher Extension, adjoining the California Rand, to reach the downward extension of the rich vein recently tapped in the slope above the main shaft. The drift is now down 150 feet below the point of discovery and is expected to break into a large deposit of high-grade ore, at the Kelly mine.

Rand has shown the greatest values at depth. The ore in the main slope samples \$25 a ton, with considerable gold and ruby silver in evidence.

In the north working drifting continues in ore sampling \$13 a ton in gold. The drift from the mine will give backs of 600 feet on the ore body. The management is completing arrangements for production and reports the property should be earning substantial profits in the near future.

Arkansas Tax on Oil Brings Huge Revenue
OKLAHOMA CITY (Okla.) Nov. 23.—Now oil and its products have superseded other minerals and other developed natural resources of Arkansas in recent years is shown by severance tax figures in the office of the Arkansas Railroad Commission, showing totals collected for a six months period ending September 30. The grand total was \$1,446,335. Of this amount \$1,214,170 was collected from crude oil and gasoline. Timber was the next, highest item, \$176,881. Coal yielded \$18,788, bauxite, \$30,878, and diamonds, \$323.

Union county seat of the Eldorado field, paid \$724,209 into the oil and gasoline tax fund. Guadalupe county, seat of the Smackover field, paid \$484,821. Columbia county paid \$119,732. Crawford county, \$11,275. Saline county's bauxite tax was \$25,427.

These funds are derived from a gross production tax levy of 3 per cent. The third largest source of income to the common-school fund and one-third is returned to the county in which it is collected.

FINDS HANGING SKELETON
MARQUETTE (Mich.) Nov. 23.—A third-grade boy, believed to be that of Andrew Koski, 23 years of age, of Duluth, was found hanging from a limb of a tree near here. Clothing on the skeleton was identified as that of Koski, who was taken to the County Jail here a year ago in a demented condition and who disappeared a few days later when he was released.

(EXCLUSIVE DISPATCH)

CALGARY (Alta.) Nov. 23.—Alberta's biggest "wet gasser," Royalite Well No. 4 of the Imperial Oil Company, is blazing furiously and 20,000,000 cubic feet of gas goes up in flames every twenty-four hours.

UPPER LEVEL PRODUCTION TO BE TRIED

Attempts to be Made at Once on Strong No. 2 by Whitley Company

RIDEOUT HEIGHTS, Nov. 23.—Attempts at production in the upper levels of the Strong No. 2 well are to be made at once by the Whitley Oil and Refining Company.

The well, which is located on the outskirts of what is believed to be the producing area of the field, is 2400 feet from the O'Donnell No. 6. Attempts to obtain production at 4900 feet met with failure. Drillers believe that sands passed through near 4300 feet may be productive.

Government of the French Republic

EXTERNAL LOAN OF 1924
TWENTY-FIVE YEAR SINKING FUND 7% GOLD BONDS

Dated December 1, 1924.

Interest Payable June 1 and December 1

Due December 1, 1949.

NOT SUBJECT TO REDEMPTION PRIOR TO MATURITY, EXCEPT FOR THE SINKING FUND

In the loan contract pursuant to which these bonds are to be issued, the French Government covenants to pay as a sinking fund, \$4,200,000 per annum, payable in equal monthly installments beginning January 1, 1925, being sufficient to retire annually one-twenty-fifth of the entire issue at 105%. Such sinking fund payments are to be applied to the purchase of bonds, if obtainable at or below 105% and accrued interest, or if not so obtainable, to the redemption of bonds, called by lot, at 105% and accrued interest, such interest in either case to be paid otherwise than out of the sinking fund. The bonds are to be redeemable at said prices for the sinking fund on December 1, 1925, or on December 1 of any year thereafter prior to maturity.

Coupon Bonds in Denominations of \$1,000, \$500 and \$100

Principal and interest payable in New York City at the office of J. P. Morgan & Co., in United States Gold coin of the present standard of weight and fineness, without deduction for any French taxes, present or future.

In connection with our purchase of these bonds, M. Clementel, Minister of Finance of the French Government, has addressed to us a letter dated November 22, 1924, regarding the purposes of the issue and referring to the French foreign debt, budgetary position and economic situation. Copies of this letter may be obtained at the offices of the undersigned.

THE ABOVE BONDS ARE OFFERED FOR SUBSCRIPTION, SUBJECT TO THE CONDITIONS STATED BELOW, AT 94% AND ACCRUED INTEREST, TO YIELD APPROXIMATELY 7.53% TO MATURITY.

All subscriptions will be received subject to the issue and delivery to us of the bonds as planned, and to the approval by our counsel of the terms and validity thereof and of the relevant documents.

Subscription books will be opened at the office of J. P. Morgan & Co. at 10 o'clock a.m., Monday, November 24, 1924, and will be closed in their discretion. The right is reserved to reject any and all applications, and also, in any case, to award a smaller amount than applied for.

The amounts due on allotments will be payable at the office of J. P. Morgan & Co., in New York funds to their order, and the date of payment (on or about December 9, 1924) will be stated in the notices of allotment.

Temporary bonds or interim receipts, exchangeable for definitive bonds when prepared and received, will be delivered.

TONOPAH MINE RANKS FIRST

Silver Production for 1924 So Far Places it Above Nipissing Property of Canada

TONOPAH (Nev.) Nov. 23.—The Tonopah Extension has definitely established itself as the greatest silver producer in the world for 1924, relegating to second place the Nipissing mine of Canada which long held the premier honor. For the first nine months of this year the output of the Tonopah Extension totaled \$1,419,251, against \$1,320,332 for the Nipissing. The October yield of Tonopah Extension reached \$225,000, with the Nipissing yield estimated at \$170,600.

The yield of the great Tonopah producer promises to increase in 1925, with development of new and rich areas from the 2375-foot Cash Boy shaft, opening of productive ground from the McKane shaft, and development of the western extension of the wonderful Murray vein-system through a new shaft.

The giant Murray vein at an approximate depth of 2000 feet, is fully seventy feet wide with all the ore of excellent milling character, while new levels from the 2250 workings of the Cash Boy have demonstrated persistence of the ore body far beyond the main productive horizon. The Tonopah Extension is improving the mill, and rushing to completion a 4000-horsepower Diesel power plant, preliminary to heavy production.

BELMONT ACTIVE
The Belmont Company has announced its main 1700-foot shaft will be deepened to 2700 feet and comprehensive lateral development prosecuted. This work ranks among the most important ever undertaken at Tonopah, and is based on the belief that continuations of the main Belmont vein-system and neighboring ore bodies will be encountered at great depth. The Belmont continues to produce over 3000 tons of ore monthly, with shipments going to the Miller plant and the Kennett smelter. Arrangements are being made for extensive development of the Belmont Extension and other properties controlled by the Belmont through its main workings.

Production of the West End Consolidated for October approximated \$46,320, a slight increase over the September yield. The company is prosecuting work in its Ohio, West End, West End Extension and Tonopah 75 properties.

A buck deer with a tremendous spread of horns and weighing 165 pounds, has been killed in Sonoma county. It is told that hunters have been trying to shoot him for thirteen years. Why anybody with a shred of love of nature should want to kill a magnificent animal just for the pleasure of killing it is a mystery. (Turlock (Cal.) Journal.)

SLIGHT OIL SHOWING IN TEST HOLE

Shell Company's Kettler No. 2 Cuts Hard Cap at 5300 Feet

TORRANCE, Nov. 23.—The Shell Company's Kettler No. 2, a deep test hole near the Santa Fe Railroad tracks, is down 5300 feet and has just been drilled through a hard cap formation into shale with slight showings of oil.

The Jameon Oil Company's Kettler No. 2, a deep test well on East Palm street in Lomita, will make another production test this week from a depth of 4500 feet. The hole is now down more than 4700 feet. Three weeks ago, water trouble developed during a test, and the hole has since been drilled deeper. The crew may put in a combination water and oil string, according to reports.

New completions of the week included the Standard Oil Company's Dominguez No. 4, yielding 108 barrels daily from a depth of 3825 feet; the Standard's Dominguez No. 11, yielding 108 barrels from a depth of 3810 feet. The Chandler-Candfield Midway Oil Company's Franch No. 1, a deep wildcat hole on Western avenue, north of Torrance, is down 4300 feet, and still drilling, with no showings of importance.

MINE OPERATOR WINS FIGHT FOR PROPERTIES
VANCOUVER (B. C.) Nov. 23.—After twenty years effort by interlocking companies to hold the valuable properties of the Lightning Creek Gold Grave and Drainage Company in Cariboo, Charles H. Unversagt was successful today in having a leave for five years granted to one of his organizations, the Northwest Company of Seattle. From one company to another Unversagt has moved the control of the mining properties, each time just evading his claims.

The United States authorities

have failed him once, and now have him indicted for using the United States mails for fraud, but through it all Unversagt has wiggled until the court of British Columbia granted his request today and allowed him another five year breathing space providing he produces \$11,000 at once to pay off liabilities and sufficient money to commence operating the claim inside a month.

M. Morgan of New York and his associates who are interested in the properties have been endeavoring to get the courts to award them operating rights, but Unversagt has again defeated this faction.

SIX LEASES OBTAINED

Confidence in Development of Comanche Point Area Seen

BAKERSFIELD, Nov. 23.—Indicating confidence in the development of oil in the Comanche Point district, six leases have been obtained by the Santa Fe through its subsidiary, the Chandler-Candfield Midway Oil Company. The agreements cover 350 acres and were obtained by F. C. Noel and E. K. Potter of Los Angeles from the original owners and then assigned for record yesterday.

The property comprises acreage on Sections 22, 23 and 22, 23-35, original holders being Thomas Vice, Harriet F. Griswold, L. J. Teale, Marie Lopez, Emily Robinson and Dr. R. B. Ross. The test well being drilled by the General Petroleum Company in the district is down about 2500 feet, and reports are being received from scouts are to the effect that oil and gas showings are being obtained. The company officials, however, state that a deep test will be required.

SEEK SEMINOLE LEASE
OKLAHOMA CITY, Nov. 23.—California oil interests represented by R. E. Bering and E. G. Starr of Los Angeles are negotiating for leases in the vicinity of the Cromwell pool in Seminole county with

view to developing the well-known drilling company, the California Petroleum Company, which is now operating in the district.

There are reports that the California Petroleum Company is now operating in the district.

The California Petroleum Company is now operating in the district.

Mine and Oil Notes From Far and Near

OPTIMISM NOTE IN STOCK MART

WELL INDICATES RED BALL IS TO CORN-HUSKING IS NEW STRUCTURE START DRILLING MIDWEST SPORT

Oil Discovered Thirty Feet Higher Than Expected

Dominguez Area Believed to be Much Larger

Formation Shows Evidence of Flattening Out

Leidecker to Go Ahead With Gilmore Well

Prarie States' Champions Go in Training

Interstate Entries to Meet on Iowa Farm

Rigid Rules Prepared to Govern Contest

Development of strong probability that the productive limits of the Dominguez field may be even further to the southeast than has been generally believed, was the outstanding feature of the week's operations in the Dominguez field.

According to geologists of the United Oil Company, which completed the first well in that area, the field is believed to be much larger than previously estimated. The well, which was drilled to a depth of 3,000 feet, struck oil at a depth of 2,700 feet, a discovery which is believed to indicate that the field extends to the southeast for a considerable distance.

The United Oil Company, which is a subsidiary of the Gilmore Oil Company, is planning to drill a second well in the area, which is believed to be a much larger field than previously estimated. The well, which is being drilled by the Gilmore Oil Company, is being drilled to a depth of 3,000 feet.

Hobbs, Wall and Company

First Mortgage 6% Serial Gold Bonds

Dated October 1, 1924 Due Serially April 1, 1929-39, Incl.

Principal and semi-annual interest (April 1st and October 1st) payable at Wells Fargo Bank and Union Trust Company, San Francisco, Trustee. Call price 101 1/2 until April 1, 1936, decreasing thereafter 1/2 of 1% per year. Authorized \$850,000. To be presently issued \$700,000.

APPLICATION HAS BEEN MADE TO THE SUPERINTENDENT OF BANKS TO CERTIFY THESE BONDS AS A LEGAL INVESTMENT FOR SAVINGS BANKS IN CALIFORNIA.

EXEMPT FROM PERSONAL PROPERTY TAX IN CALIFORNIA, INCOME TAX UP TO 8% PAID BY THE COMPANY

Organization. Hobbs, Wall and Company was incorporated under the laws of California in 1896, and was acquired by Mr. W. J. Hotchkiss and associates in 1903.

Property. These bonds will be a first mortgage on over 950,000,000 feet of timber, of which over 530,000,000 feet is Redwood, and upon complete sawmill with a capacity of 90,000 feet per eight-hour shift. The company also owns railroad, wharves on deep water, shingle mill, logging equipment, mercantile establishment, electric light plant, cut-over timber land, ranches, residence and business property in Crescent City.

Valuation. Valuation of timber upon which these bonds will be a first mortgage, as indicated by independent appraisal, is over \$2,917,500, of which Redwood alone is valued at over \$2,372,000. Balance Sheet, as of December 31, 1923, before giving effect to this financing, shows net quick assets of over \$1,500,000, which will be substantially increased by the proceeds of this financing. Lumber mill, railroad, logging equipment, electric light plant and other assets provide substantial additional value.

Earnings. Earnings available for the payment of interest for the five years ending December 31, 1923, averaged over \$237,000 per year. Net earnings, after deducting all charges, including depreciation, depletion, Federal taxes and other reserves, except interest paid on bonded indebtedness, averaged over \$182,000 per year, or more than four times interest requirement on this issue.

Sinking Fund. Mortgage provides for semi-annual payment to the Trustee, for the retirement of bonds, of an amount equal to \$2.00 per thousand feet log measure of timber cut by the Company, after 100,000,000 feet of timber has been removed.

Management. Management and ownership of the property will continue in the hands of Mr. W. J. Hotchkiss and Mr. J. M. Hotchkiss, who have owned and operated the property since 1903.

Purpose of Issue. The proceeds of this financing will be used to retire outstanding bonds and to reimburse the Company for capital expenditures incident to the enlargement of its mill; to increase working capital and for general corporate purposes. The \$150,000 bonds remaining in the Treasury may be issued later for general corporate purposes.

MATURITIES AND PRICES

State Plants New Trees to Replace Sugar Makers Cut for Timber

Instrument is Installed at Summit of Hawaiian Mt. Haleakala

VERMONT (Vt.) Nov. 23.—Vermont has made a beginning toward renewing its sugar maple orchards by planting 10,000 maples at the State Forest in Sharon. Through its Forest Department the State seeks to insure a continuance of the predominance of maple in the production of maple sugar and syrup.

A generation ago every farm in the State had its maple orchard, but maple wood is much sought for as fuel and lumber and the trees grow large and yield much cordage. The market for hard wood has been high for a decade, especially since the years of the World War, when the price went up to \$15 and \$16 a cord. The result was that many woodlot owners disregarded the prospects of future profits and used the ax to turn their orchards into cash.

Although the Green Mountain State still produces maple products valued at about \$4,000,000 each year, there are many tracts now bare or grown up with brush, where giant maples had grown since the days when the American Indian obtained the sap by slashing the trunk with a stone ax and setting up a wooden trough to conduct the liquid into some rude birch bark receptacle. The forest, says there are hundreds of thousands of seedling sugar maples in the woods growing too close together to be of any use, unless they are cut and handled scientifically.

They all Talk

A young man talks with pleasure, and an old man talks with ease; as orator talks like some men walk—six days, go as you please.

The preacher talks of sins and things, of hell's eternal fury; the lawyer hurls his jawbone at a mad but helpless jury.

Shocked

Marjorie was visiting her grandmother's farm for the first time. A big turkey strutted toward her, and she, a heavy white, expected an outcry of fear. The little girl did not budge until the turkey came quite close, when she exclaimed: "Oh, you great big chicken! Pull your clothes down and leave me alone." (Viola Kocher in Capper's Weekly.)

Dead Game Sport

While a shooting party was out for a day's sport, a raw young sportsman was observed to be taking aim at a pheasant running along the ground.

As it is unimportant to shoot a bird while it is on the ground, a companion shouted: "Hi, there, never shoot a running bird!"

From a magazine ad: "Because of a certain singing tea-kettle we now have the puffing engine Young Isaac Watts heard the song."

And Isaac being busy with his hymn-writing at the time transmitted to James Watt his idea for a steam engine. Is that it? (Boston Transcript.)

Of Interest to Women

The Woman and Her Job

Questions concerning the problems of women will be answered in this column if addressed to Mrs. Watson at The Times.

ACROSS THE YEAR

Thanksgiving is just three days away. I always like to be different from the rest of the world so I elect to have my Thanksgiving Day on Monday instead of Thursday.

If I were to thank each woman once in a while I write a story for the column that seems to me the worst thing I've ever done; I expect the managing editor to descend from his throne and say, "We have had enough of this. Well, just so sure as I feel like that, women whose names I've never heard, will call me on the phone to commend it, and for several days afterward there will be many letters referring to it approvingly. Have much to be thankful for? Indeed I have.

Then I want to thank the women who have stretched out their hands in helpfulness.

There was my little Mrs. Helen H. Parker, at 2418 West Twenty-first street, who wanted stockings to darn. I wrote a story about her, and told you she was 52 years of age and had broken her hip about a year ago. She has been edging bath towels, making tatting, darning and mending to earn what she could. Before her injury she used to raise canaries and still has about six lovely singers which she would like to sell.

She's a most lovable little woman, and my story brought her many friends. She wants me to thank all the dear women who have come to see her, sent her checks, had little gifts, as well as those who have given her their darning and mending.

One of those who came traveled all the way from San Gabriel. She brought Mrs. Parker a radio and had it installed. It was blessing to this little "shut-in," and has put her in touch with the outside world. I wish the giver might see her some day with the headphones over her ears "listening in," while her busy fingers play the needle back and forth across some "holly" golf stockings.

And the lady from San Gabriel wouldn't leave her name, either. She just brought her blessing and flew away like a real fairy.

There were letters from Missouri, from Texas, from Pennsylvania, New York and many other States. The postman took on a new interest for Mrs. Parker.

Then I want to thank those other women who have supplied work to others who needed it. And to thank the women who did the work for doing their very best because it had come from readers of the column. There are many opportunities for making the round round a little easier if we'd only stop to think.

I want to thank the women who have told me their troubles. I might tell them in the column. The problems that confront a woman are always more difficult to solve than those with which the average man has to deal. But there are women here whose experiences and achievements are quite amazing. They are usually reluctant to talk about what they have done. As one woman said the other day: "The barriers seemed insurmountable as I approached them, but as

"The precious keepsakes into which is wrought the giver's loving thought."

Choose your gift with thought and care and it will always remain one of those rare "keepsakes" which are treasured for all time. In the Schmidt Collection are innumerable gift articles of rare and exquisite beauty. Here are gifts which express every shade of sentiment, that reflect the personality and good taste of the giver. Let our expert collectors help you choose a distinctive gift for the wedding or any other occasion.

I look back they appear as gossamer threads stretched across the years. We're all much to be thankful for I know, and it seems like we might say with Tiny Tim: "God bless us every one."

ANSWERS TO QUESTIONS
Dear Mrs. D. The "beauty parlor" which the two girls opened in San Francisco about which I wrote some months ago was in the back room of their millinery shop in an office building. A chair was placed in front of a mirror, a gas heater for their marcelling iron was connected by a rubber tube to a gas jet, then set on a little unpainted wood shelf below the mirror. At the back of the room was the usual office wash basin. An electric heater was used for boiling "hot water" to sterilize the combs they used. That was all the equipment they had. While one girl marcelled the hair of a customer the other was busy trimming a hat. If a facial was demanded a Morris chair was brought in from the saleroom. Abandon those halfhearted ideas about furnishings and get down to earth.

Dear Mr. W. L. P.: Personal replies have had to be given up save to exceptions. I have called for information through the column about knitting machines, a shelf of letters replete with all unfavorable except one which bore the earmarks of having come from an agent. The two machines you mention are not known to me. I also call to see how the product from such a machine would enable the worker to make enough to compete with the hostess mill. It doesn't appeal to my common sense. I never would spend \$75 cash for a machine I was not given a fair chance to try and learn its operation and results.

SOCIETY
BY JUANA NEAL LEVY
One of the delightful affairs of recent date was the dinner party, followed by bridge and mah jong, with which Mr. and Mrs. Edward A. Featherstone entertained Friday evening at their home in West Twenty-eighth street, forty guests being invited. The dinner was a beautifully decorated with flowers and foliage in autumn tints. This is the first of a series of similar affairs in the Featherstone home. Mrs. Featherstone is one of the active and enterprising women of the West. Her husband, Mr. Featherstone, is a member, and is planning several affairs at the club after it is finished.

Wintering Here
Mr. and Mrs. W. W. Yenawine, who for twenty years have been yearly visitors in Southern California, coming west each fall for the winter, are here again. They recently, sailing through by way of the Panama Canal aboard the President Monroe, which docked at the little seaport of San Francisco and Mrs. Yenawine are at the Vista del Arroyo in Pasadena.

Homecoming Bound
Dr. and Mrs. W. W. Bookett of Harvard Boulevard, who have been making an extended trip through the Northwest, are homebound, stopping at the Palace in San Francisco for several days on the way down.

From Wedding Trip
Mr. and Mrs. Charles McMahon, who were married in San Francisco last May, have returned from a motor honeymoon trip and are home in Los Angeles. Mr. McMahon was formerly Mrs. Rose Fellerin of San Francisco.

American College Salon
Plans are about completed for one of the brilliant events of the week which will take place tomorrow afternoon at the Room of the Biltmore. The affair will be American College Salon which is being sponsored by a large group of enthusiastic women interested in literature, art and music. The premiere tomorrow afternoon at the Biltmore will be given by Mrs. Lillian Burkhardt Goldsmith, Mrs. J. J. Carter, Mrs. Charles H. Thompson, Mrs. Orville L. Routh, Mrs. James E. Helman, Mrs. Burdette Norton and Mrs. M. F. Palmer. Patronesses and governing board include: Mrs. Benjamin F. Blodgett, William Myron Keck, Oscar Trippett, William De Mille, Thomas Jefferson Douglas, Charles H. Thompson, B. Wood, Thomas May, James E. Ernst, Judson C. Rives, William E. Hamman, Samuel Vermylen, Robert Adams, Rollin B. Lane, Lewis Andrews, Jacob Stern, Burdette Norton, E. J. Stanton, Alexander Partridge, Charles H. Thompson, John Kahn, Chester Wallace Brown, Henry Mosler, Valentine Payton, Florine Wolfstein, Clarence Van Graham, Orra E. Monette, E. A. Russell, Webster Whyman, J. A. MacDonald, Ernest "Mac" Bennett Cooke, John Martin, Graham, Edith Frost, James E. Helman, Orville Routh, Paul Lowenthal, J. B. Ransom, George Major, Ralph Mallett Burdick and Theodore Roberts, and Misses Grace Watson, Susanna Watson, Jane J. Burn, Catherine Jackson, Helen Matheson, and Margaret Stroupe. Presiding at the tea urns will be Mrs. Benjamin F. Blodgett, Mrs. William Myron Keck, Mrs. Tom M. Routh, Rollin Lane, Mrs. Orville Routh and Mrs. Oscar Trippett.

Home Wedding
At a very pretty morning ceremony Wednesday at the home of Mr. and Mrs. J. H. Blauvelt, 1932 West Twenty-eighth street, Miss Nettie Frances Graham of Washington, D. C., plighted her troth to Walter E. Blauvelt of Los Angeles. The bride was attended in her going-away gown of brown silk with chile bal to match and carried a shower of bridler roses and lilies of the valley. The marriage ceremony was read by Rev. P. B. Hoff of the Lutheran Church and after a wedding luncheon Mr. and Mrs. Blauvelt left for an extended wedding trip through Southern California. After their return they will make their home in Van Nuys. The wedding march was played by Mrs. John L. Blauvelt, while Mrs. Grace A. Titus sang "I Love You Truly," preceding the ceremony. William H.

Graham gave his sister in marriage and Morton Reese served as best man. Mr. Blauvelt, at whose home the ceremony was performed, has been a resident of Los Angeles since 1861. He is now in his sixtieth year, the bride, who is a dear friend, planning to have the wedding there. The guests at the ceremony were relatives of both families and a few close friends only.

For Visitor
Mrs. Louis A. Friend and Mr. William Friend of 2288 De Longpre avenue, Hollywood, are planning a luncheon of seventeen covers at the Beverly Hills Hotel, 9640 Sunset Blvd., Los Angeles, on Monday, Nov. 25, at 2 o'clock. The guests will be Mrs. Friend, who is touring Southern California and visiting in Los Angeles.

Afternoon Affair
One of the delightful affairs of recent date was the bridge and tea given Friday afternoon by Mrs. G. A. Lavagnino of Pasadena, honoring Miss Peggy Quigg, fiancée of Harold Rudolph Beck of (ward, and also Mrs. Frank Valentine Marshall (Marguerite Platt), one of the brides of the month. The affair was given at the home of Mrs. G. A. Lavagnino, 1515 N. Hollywood Blvd. in the Crown City, and the hostess was assisted by her mother, Mrs. Josephine Quigg, and her sister, Mrs. Margaret Enderly. Miss Helene Burns, Mrs. Florence Clark, Mrs. Josephine Quigg, Mrs. Margaret Enderly, Mrs. James Bugbee, Mrs. Thomas Osborne and Mrs. Clayton Lavenex. Miss Quigg is the daughter of Mr. and Mrs. John Williamson Quigg of Hollywood and her wedding with Mr. Beck will be one of the events of January 15.

Home from Trip
Mr. and Mrs. Loyd Young (Mildred Wellborn Whiting) whose wedding was one of the events of the 4th inst., have returned from their honeymoon in the north and are domiciled in their new home in Beverly Hills. Among the many guests at the wedding were Mr. and Mrs. Clark Bonner entertained at the home in Cranshaw Boulevard.

Bridge Club
Entertaining members of her bridge club Friday afternoon Mrs. Samuel W. Garretson was hostess at her home in the Hollywood. Those included were Mrs. Ridley Taylor, Mrs. Walter S. Ribble, Mrs. DeWitt, Mrs. J. M. Miller, Mrs. Edwin B. Warner, Mrs. L. Tucker, Mrs. Richard Hargrave, Mrs. E. B. Walrick, Mrs. Gilbert and Mrs. J. W. McFarlin.

MARS ROUTS CUPID UPON HONEYMOON
Man Says Wife Became Warlike and Threatened His Life Third Day

Four days after his marriage, Jesse L. Culbertson found out that married life is real and earnest, according to his complaint in suits for divorce from Mayor Culbertson, filed with the County Clerk.

The nuptials were celebrated June 29, 1923. On July 3, Culbertson related, his bride chased him around a tent at Deer Lodge Park, threatening to kill him.

He said that on the third day after the wedding, he was running about with strange men. But what happened last July 7 climaxed his marital career, he said. He was out for a walk with his wife, and she was with him, according to the complaint, danced sixteen dances in succession with him, and returned to her husband with the announcement that she was drunk.

He took her home, and she refused to go to bed. He was unable to arrive at his home, and he was forced to leave her in a rooming house, a fruit bowl and two large hair brushes at him, he related. He finally was able to call the police to quell his turbulent spouse, Culbertson said, and their separation has continued from that day.

PROGRAM COMPLETE FOR VETERANS' SHOW
PROCEEDS WILL BE USED TO AID REORGANIZATION OF DRUM CORPS

Final preparations were completed today for the musical and vaudeville show which will be staged by the United Spanish War Veterans in Roosevelt Hall at 555 South Olive street, to assist the reorganization of the drum corps, according to E. B. Wiget, entertainment chairman.

As an outstanding feature of tonight's event, Walt Mason will stage an original black-face act, and Tom Wilson, Tim Connelley, member of the Roosevelt Camp, has prepared several surprises. Invitations to veterans of Los Angeles county and their friends have been issued.

NEW SITE FOR AUTO CLEANING COMPANY
A new eight-story freestanding garage erected as the future home of the Auto Cleaning Company has been opened by W. H. Shortleaves at 1250 South Broadway. The new garage has 30,000 feet of floor space and will accommodate 500 cars. The garage is one of the largest and best equipped on the Coast. It is of steel construction and was completed recently.

Coffee

Luncheon
Chef's Hash
Hot French Rolls
Pumpkin Pie
Tea

Dinner
Onion Soup
Ripe Olive
New England Boiled Dinner
Lettuce and Walnut Salad
Chocolate Bread Pudding
Coffee

CHEF'S HASH
Run through the meat chopper five peeled and sliced potatoes, two sliced onions, three seeded green peppers, and two tomatoes. Place in a frying pan four tablespoons of butter, heat, add the chopped vegetables, cover and cook until the potatoes are nearly done, stirring often, add a little water or stock if it gets too dry. Add two cups of sliced cooked meat, a teaspoonful of salt and pepper, and one teaspoonful of table sauce. Heat and serve on a hot platter; garnish with points of toast.

PUMPKIN PIE
Rub one and half cups of canned pumpkin through a sieve and beat into it two well-beaten eggs, one cupful of sifted brown sugar, one teaspoonful of cinnamon, one-quarter of a teaspoonful of cloves, one-quarter of a teaspoonful of allspice, one-quarter of a teaspoonful of ginger, one-quarter of a teaspoonful of nutmeg, half a teaspoonful of salt, and one and half cups of milk. Beat three minutes, pour into a buttered pie pan, place in a moderate oven for ten minutes, reduce the heat

ONION SOUP
Slice three onions and place in a saucepan with three tablespoons of butter. Stir and fry slowly until the onions are soft and lightly browned. Add six cups of beef stock, bring to boil, boil ten minutes, skim, and add one silver of garlic and one tablespoonful of finely chopped parsley. Pour the soup into an earthenware baking dish, cover with crusts of dry bread cut in thin slices, sprinkle with four tablespoons of grated Parmesan cheese and set in the oven until the cheese is brown. Serve from the same dish.

CREAM WAFFLES
Beat the yolks of two eggs until light and creamy and beat into them two cups of flour, four cups of sugar, and two cups of milk. Beat well, add two cups of sifted flour, sifted with one teaspoonful of baking soda, one tablespoonful of corn-meal, and half a teaspoonful of salt. Beat for two minutes, add the stiffly beaten whites of two eggs and bake in a hot waffle iron.

CHOCOLATE BREAD PUDDING
Mix two squares of chocolate in a double boiler and stir into it three cups of milk and stir until the chocolate is dissolved. Beat three eggs until light with three tablespoons of sugar, mixed with one-quarter of a teaspoonful of salt and half a teaspoonful of cinnamon; pour the hot chocolate and milk into this, stirring constantly. Cut the crusts from slices of bread, spread each slice with soft butter, place in a buttered baking dish in layers, sprinkle each layer with seedless raisins, pour over milk mixture and bake in a moderate oven thirty minutes. Serve with cream and sugar.

DIET AND HEALTH
By Lulu Hunt Peters, M.D.

MUCH ADO ABOUT SOMETHING

thirteen years now. She reckons she has saved by this procedure at least fifteen minutes a day. That totals approximately fifty days in time. Isn't that worth while?

Don't be afraid of baldness or beard. Continue to take care of your scalp, brushing it thoroughly so that it is as clean as a baby's palm. You need not be afraid of baldness. Cutting off the hair is not what makes men bald. They got bald even when they wore it long. The Bible says so.

Tomorrow—Much ADO About Something (Part 2.)

My dear fellows: When writing for several years on the subject of baldness, I have received many letters from men and women asking for advice on baldness. The problem on baldness and nothing to do with the hair. Baldness is a disease of the scalp, not of the hair. Baldness is a disease of the scalp, not of the hair. Baldness is a disease of the scalp, not of the hair.

My word! To God! Great Allah! All of these and more of them when I think of certain hospitals dismissing their nurses for adopting the hygienic fashion. Hospitals that are supposed to do everything to promote hygiene in all ways, but that should do everything in their power to help their nurses to be more efficient!

I wonder, when the men read that long hair was an abomination and decided to cut it off, if there was the same senseless agitation against it. I wonder if the women protested that it would make their men less masculine, would change their voices and make them less manly. I wonder if the hair dressers and the false hair manufacturers instituted organized propaganda shows to keep the hair on the heads of the women. I wonder if the time to look up the literature on baldness had been taken. No doubt, however, they did for no revolution was ever ushered in without trouble.

Do I consider the present fashion of short hair for women a revolution? I do. It isn't a fact, believe it or not, that the hairdressers, the false hair manufacturers, and the hair-pin manufacturers of those who do not fancy it, are as powerless as the wave of a wand. Of course, we can't blame the false hair and hairpin manufacturers for protesting. Naturally they are going to have to get out of business. I suppose many of them have already done so.

The next generation will see the world full of baldheaded women," asserts Mr. Byrne, smiling. (1.) In an address at the opening of the sixth annual convention of the American Master Hairdressers' Association, Mr. Byrne blames it on bobbed hair. "To fit the bobbed hair, the hairdressers have had to make hats that fit the head very tightly. Result? Baldness, as sure as you're sitting there." Another hairdresser is quoted as saying that women will grow beards and develop a masculine voice in a few generations and the race is jeopardized! Don't you believe it. In the first place, our hats do not fit any tighter now than they used to; in the second place the tight-fitting hats as a cause for baldness in man, is not proved. As for beards and masculine voices developing from cut hair, any woman who knows anything about heredity knows that's impossible.

I confess I didn't have my hair cut until the style of the closer cut in the back was started. I had admired the long cut on young girls and had had the older women who had the courage to adopt it. But I had not had the courage myself. I was held back by that "distasteful idea." But when I noticed how dignified, how neat, how becoming the new cut was to the mature woman and realized how comfortable it would be, I had me to the barber's.

I have had many letters asking my ideas on the subject. Will bobbing result in baldness? Do I think of the middle-aged woman should adopt it, and so forth? Now I have answered. My idea is that the older woman is, the sooner she should be shorn. For she has a shorter time on this glorious sphere and she should not be wasting it on such useless work as dressing her hair. I have a friend who has had her hair bobbed for

for what the French call "a dinner dress" to be worn semi-formally at a restaurant or theater, the tonic blouse in lace over a satin slip makes a most satisfactory costume.

There are many times when you go out in the evening, when you do not want to be on grand dress. Perhaps you have come in town to do a little shopping before dinner and want to stay on without change of dress for a restaurant dinner and the theater. Perhaps you are going to play bridge or Mah Jong or people are coming in for dinner informally and you don't want to wear formal evening dress. The new tonic blouse in lace or satin with the circular blouse worn over a satin slip fits just such needs in a most satisfactory manner.

FASHIONS & FOIBLES
by Shirley Sharon

Two kinds of things: Surface and inner. Both are important. Both are necessary. Both are essential. Both are indispensable. Both are irreplaceable. Both are invaluable. Both are priceless. Both are priceless. Both are priceless.

The most delicious lunch, pick up slithering threads and help the women to get at the deep dirt. They clean thoroughly!

The attachments clip into place while the duster cleans over. They clean thoroughly!

QUESTION TOO DEEP FOR JURY

Asked to Judge Strength of Water and Grape Juice

Unable to Decide Alcoholic Content of Mixture

Defendant Accused of Having Intoxicating Liquor

RIVERSIDE, Nov. 23.—It was too much for the jury. Until late last night twelve men, good and true, tried to solve the puzzle and finally decided it couldn't be done.

The weighty question which fell to their lot was: "Does ten gallons of grape juice added to sixty gallons of water make an alcoholic beverage or does it not?"

The case was that of C. N. Murietta, charged with possession of intoxicating liquor which officers declared showed a 10 per cent alcoholic content. Murietta contended that it couldn't and to prove his statement introduced F. Chrosky, chemist for the Italian Vineyard Company at Guadalupe. Chrosky declared that if Murietta had mixed the ten gallons of fruit juice with sixty gallons of water that the alcoholic content could not possibly be more than 8 per cent.

Where the extra 2.5 per cent came from is still one of the unsolved mysteries in Justice C. H. Hildner's court. Attorney J. L. Richardson, for the "kick" might have been added by Sheriff's officers after they took the liquor to the County Jail.

Atty. O. K. Morton indicated he believed Murietta might have added some sugar to the liquid to aid in the fermentation process.

After the jury had deliberated at length the men filed into the courtroom with the statement that they stood seven to five and were hopelessly deadlocked. It was noted whether the jury favored conviction.

Murietta is out on \$500 bail and the case will be returned to the calendar for another trial. It was stated, Murietta lives at a small villa where the raid was staged.

BUILDING ACTIVE
Permits Indicative of Greater Fresno Property

FRENO, Nov. 23.—With a number of large permits in the offing, according to attaches of the building inspection department of the city, the permit for the construction of a new building, estimated at \$12,500 to include yesterday. Of that amount, \$11,500 was represented by permits for the construction of a new building, estimated at \$11,100 for alterations and repairs to those now in existence.

Many thousand dollars' worth of permits are about to be issued, E. Curtis Neal of the inspection department said yesterday and building appears to be decidedly on the increase. One building, he added, has declared his intention of constructing eight new bungalows in the north and several other costly dwellings are being contemplated.

VETERAN OF KINGS BENCH TO RESIGN

HANFORD, Nov. 23.—Superior Judge M. L. Short, who has presided over the County of Kings for twenty years and refused nomination for further service, retired on January 1, 1925, after a long and successful career. Judge Short will resume the practice of law, and will be succeeded by his successor, Judge Short has occupied at different times temporarily the Superior Court bench in many counties of the State. He began practice at National City, San Diego county, from there went to Fresno, Tulare county, and then to Hanford to enter the practice of law and was here but a short time when he was elected Superior Judge, which position he has since filled continuously, with the exception of one term.

CANDIDATES NAMED BY INGLEWOOD POST

INGLEWOOD, Nov. 23.—Nominations for officers of the Inglewood American Legion Post were announced today by Dr. C. W. Farmer, post adjutant, as follows: Commander, Harry Aspinwall and Eugene Lewis; first vice-commander, Ross Porter and Melville Rhodes; second vice-commander, William Kemp; adjutant, Earl W. Porter; chaplain, Harold H. Matthews; finance officer, Kenneth N. Glaser; and Ernest T. Marsh; historian, Harry Beaver and C. D. Benson; sergeant-at-arms, George Walker and Jack Andrews; executive committee, Fred Thatcher, W. Allen, Fred E. Laxdal, Newcomb Condee and Louis Hardin.

CHURCH TO OBSERVE FIRST ANNIVERSARY

MONTESE, Nov. 23.—Next Sunday the Montrose Community Methodist Church will celebrate its first anniversary with a series of lectures, meetings and entertainments lasting through the week. Rev. George Durr, pastor. Rev. A. B. Leonard of Los Angeles and Rev. W. R. Collins of Glendale are on the anniversary program.

NEW MASONIC LODGE

OWENSMOUTH, Nov. 23.—A new Masonic lodge is being formed here under the direction of George West, Worshipful Master. An application for a charter has been filed with the Grand Lodge. There are about 100 Masons in the Owensmouth district. Headquarters for the lodge have been opened in the new Reichelheimer Building.

CHECKS PAID TO GROWERS OF WALNUTS

Initial Amounts Given to Valley Ranchers Aggregate About \$30,000

LANKERSHIM, Nov. 23.—Substantial checks are being received by the growers of walnuts in San Fernando Valley, who have marketed the output of their ranches through the local warehouse of the growers' association.

The initial payment of \$30,000 is said to represent a 25 per cent payment of all shipments delivered up to the last. After the receipt of these checks other payments will follow in time until the year's crop is cleared.

One attaché of the shipping warehouse today said that the harvest in the district will amount to thirteen full carloads or more and that the nuts are of the very best of variety. Many of these shipments already have gone forward into eastern markets in time to meet the Thanksgiving trade.

Sam Martin, one grower at Van Nuys having shipped one full carload from his grove. This shipment was the first full carload from a grower in the district of San Fernando Valley.

Pasadenans Plan Banquet for Robinson

By a "Times" Staff Correspondent
PASADENA, Nov. 23.—Henry M. Robinson, Pasadena resident, Los Angeles banker and world famous financier, will be royally entertained in this city on the night of December 1, with an elaborate banquet and reception sponsored by the Pasadena Chamber of Commerce. This will be Mr. Robinson's first appearance since his return to Southern California from Europe where he was a member of the Reparations Committee adjusting European problems under the Dawes plan. Mr. Robinson is now on his way to Pasadena from New York.

According to James B. Williams, president of the Pasadena Chamber of Commerce, Dr. John Willis Baer, vice-president of the Pasadena branch of the Pacific-Southwest Trust and Savings Bank, will be the toastmaster at the Robinson dinner.

Mr. Robinson accepted Pasadena's invitation by wire this morning and the dinner and reception were immediately started. The affair probably will be held at the Hotel Hamilton, William Dunderley and Dr. Russell Simpson are arranging the details.

SCHOOL LEVY TANGLE
Tax Unpaid on Property Worth \$2,000,000 in Long Beach

By a "Times" Staff Correspondent
LONG BEACH, Nov. 23.—The Long Beach School Board was as city officials are confronted with the possibility of seeing a \$2,000,000 worth of property in this city put up for sale for delinquent taxes, it was revealed here today, following a plea of the board of the city to exempt certain real estate.

Although school property under the law is ordinarily exempt from taxation, the property in question was acquired from private parties about March 1, at the time taxes are due. The taxes became a lien on the property on that date because previous owners had not paid them. City Assessor Bridge reported to the Council, and he declared that he has no authority under the law to remove the properties from the assessment rolls.

Property involved includes the Woodrow Wilson High School site, the Alexander Hamilton Junior High School grounds and lands purchased for the following: the new school, Bryant, Lowell, Naples, Harding Park.

Lots recently added to the Jefferson Junior High School grounds are also involved, it is said. Construction of school buildings to cost \$1,800,000 is now under way on the properties, the Council was told.

LONG BEACH MASONS WILL BUILD TEMPLE

By a "Times" Staff Correspondent
LONG BEACH, Nov. 23.—A new Masonic temple, capable of housing the several Masonic lodges of the city, as well as the Eastern Star, is to be built on Locust avenue between Eighth and Ninth streets at a cost of approximately \$250,000. It was announced here today by Lloyd W. Vale, Past Worshipful Master of Palms Verdes Lodge.

Actual construction work is to begin in June, it was said, and definite announcement about plans will be forthcoming about the time the student body overhauled the faculty to give credit for athletics, working on the school publication and other branches of school activity.

The faculty, in an effort to stimulate interest in the various sports activities of the school, offered to give credit toward graduation to students participating. The measure was put up to the students and they voted down by 239 against 77 votes for. Prior to the taking of a vote a debate on the question was heard by the students. Theodore Pomroy and Robert Fulwider spoke in favor of the proposal and Fred Peterson and Theodore Coleman took the negative.

NEWS SIGNS WILL WARN OF KILLINGS

By a "Times" Staff Correspondent
PASADENA, Nov. 23.—Conspicuous signs may be placed at intersections and other points in Pasadena streets, where fatal accidents have occurred, telling of the tragedy, it was disclosed by Assistant City Manager Hooper today. In this way it is believed that motorists, continually confronted with evidence of their carelessness, will be more careful in driving. This is but one of the many schemes now being devised to cut down the number of accidents.

SANTA ROSA RANGE FIRE DEVASTATES

Thirty Men on Line Now and Fifty More Called to Battle Flames

RIVERSIDE, Nov. 23.—Fanned by a forty-mile gale, flames are raging in the Santa Rosa range of the Palomar mountain district tonight out of control. The fire is sweeping forward over a fifteen-mile front. It was discovered early this morning, about thirty miles south of Hemet.

Ranger C. W. Beardsley, who is in command of a force of firefighters of thirty men, reports that the flames are sweeping into the heavy wooded section of the range and that about a vast quantity of timber is being consumed.

He has asked Riverside for fifty men, besides the twenty-five recruited at Hemet tonight. The flames are rushing to the scene of the fire.

PASADENA STORE IS ROBBED SECOND TIME

By a "Times" Staff Correspondent
PASADENA, Nov. 23.—For the second time in recent months the Joseph A. Ledy clothing store, 14 East Colorado street, was broken into and robbed of a vast quantity of men's clothing at a late hour last night, the police were advised.

Detective Lieutenant Benjamin Gaighin and Stanley Decker, who investigated the theft this morning, declared that two men accomplished the job by gaining entrance to the Parlat Studio, directly above the clothing store, and then baring through to the floor below. The flooring and plaster were completely ruined in the process.

Suits, overcoats, sweaters, shirts and other articles of apparel, valued at \$1000, were stolen, detectives say.

INGLEWOOD WARS ON DUMPING RUBBISH

INGLEWOOD, Nov. 23.—This city is on the warpath against the promiscuous dumping of rubbish in the outlying sections. Although this municipality will co-operate with Los Angeles in the fight against the dumping of rubbish here, according to Judge A. F. Monroe, who recently filed that city \$100 for an injunction against the dumping of rubbish by its employees who dumped trash in the northeast part of the city.

HUNTINGTON PARK TO VOTE ON RECALL

By a "Times" Staff Correspondent
HUNTINGTON PARK, Nov. 23.—Huntington Park is to have its first recall election. The petition, which was read at the last meeting of the Trustees, has 749 signatures attached to it.

The recall movement started several weeks ago, but petitions were not put in circulation until two weeks before they were presented to the City Clerk. The Trustees mentioned in the petition are Milton A. Blanchard, who is president of the board; Frank Fitch and Norman O. Byers. These three Trustees were elected at the last city election, April 14. They took their seats one week later.

OWNERS TO MEET AND FIX PRICE FOR CABINS

By a "Times" Staff Correspondent
PACOMA, Nov. 23.—More than forty cabin owners in Pacoma Canyon will conduct meetings on the 25th and 30th insts. to agree on a price for their cabins which are to be purchased by the county as a preliminary to starting work on the new \$1,600,000 Pacoma dam, one of the county's \$25,000,000 flood-control program.

SPORTSMAN AND DOCTOR JAILED

Pair in Cell for Night After Auto Injures Newsboy

Policeman States Both Men Had Been Drinking

By a "Times" Staff Correspondent
PASADENA, Nov. 23.—Dr. F. W. Bishop, a physician, and Gerald A. Rogers, a sportsman, both of Los Angeles, spent the night in the Pasadena City Jail after being arrested for running down and injuring Stanford Foster, 14 years of age, a newsboy. The Los Angeles pair were charged with intoxication, reckless driving and Wright-Act violation.

According to Patrolman Cliff Farmer who made the arrest, Rogers, driving a Packard sport car, ran down the newsboy at the corner of Lake avenue and Colorado street. The boy and his bicycle were so pinned beneath the heavy car that it was necessary to jack up the wheels to extract them, the officer reported.

Both Mr. Rogers and Dr. Bishop had been drinking, the officer said, and a search of their car disclosed nine pints of gin and one pint of whiskey. The men were on their way to the mountains, they said, for a hunting trip. A number of rifles and shot guns, and a valuable Airedale dog were also found in the car.

Today Rogers, who gave his address as 1310 Colorado Boulevard, Los Angeles, was released on \$1000 bail. Dr. Bishop, who told the police he was staying at the Hayward Hotel, was released on \$500. The pair will appear before Judge Dunham tomorrow morning.

ALFALFA GROWERS MADE DEFENDANTS

BAKERSFIELD, Nov. 23.—Approximately 150 Kern county farmers have been named as defendants in a suit for \$125,000 brought by the creditors of the State Alfalfa Growers' Association in Sacramento county. The plaintiff in the litigation proceeding is the Wholesale Credit Association, according to Attorney Edward West, who will represent the interests of Kern county farmers who have already been assessed to discharge certain debts of the old Alfalfa Growers' Association.

In filing a complaint against the Alfalfa Growers' Association, the Wholesale Credit Association has named 1,505 farmers of the State of California as defendants. Most of this total number about 150 of the defendants live in this county. The Alfalfa Growers' Association is a State-wide institution.

Owensmouth Shipping Many Lettuce Cars

OWENSMOUTH, Nov. 23.—The first ten carloads of the winter crop of lettuce from the Owensmouth district have been shipped out, and new estimates now indicate that between now and the Christmas season between seventy-five and 100 more carloads will be shipped. Much of this lettuce is bound for Eastern and Middle West markets, where green lettuce at this time of the year is an edible delicacy.

All during the week large lettuce shipments have been made. Beginning with December 1 at least two carloads each day will leave the shipping point here.

The recent rains did only the slightest damage to the crops. Some of the more advanced heads burst with excessive moisture. The rest of the maturing yields are in excellent shape.

PLAN PLANE BALL

Long Beach City Council to Pass On Proposition Tuesday

By a "Times" Staff Correspondent
LONG BEACH, Nov. 23.—Selection by the United States Navy of Long Beach as the Pacific fleet airplane operating base looms as a strong possibility here. The City Council, it was said, will pass on the proposition at its meeting Tuesday. Correspondence between Admiral S. S. Robeson, commander of the Pacific fleet battle forces and Squire F. Duree, director of public parks and recreation regarding the proposed establishment here of the airplane base, was turned over by Duree to Acting City Manager Buck.

There is an urgent need for a permanent operating base ashore for the plane squadrons of the fleet, city authorities have been informed by Admiral Robeson. A portion of the city's proposed municipal airport, covering acres at Cherry avenue and Spring street may be set aside for the naval airplane base, it was said.

The government, if it accepts the site, will establish its own hangars, repair shops and other equipment. A second location in Long Beach also is being considered by Navy officers, it was said. This one is on the ocean front on Terminal Island, not far from the big steam plant of the Edison Company. If selection is made in Long Beach action will be taken within a short time in order that the proposed naval base may be opened not later than January 1, it was said.

INGLEWOOD MAIL BIDS ARE ASKED

INGLEWOOD, Nov. 23.—Because of the great increase in volume of mails to and from this city, the Los Angeles Railway Company has asked the Postmaster General to relieve it of the contract, on the ground that it interfered with passenger traffic. This has been done and bids called for on the contract of delivering the mail to and from this city and Los Angeles. The successful bidder, it is understood, is for a term ending in 1926. All mails for this city, Hawthorne and Hyde Park will be handled under this contract, according to Mrs. C. P. Mosher, Inglewood postmaster.

NEW HOME FOR BOYS WILL OPEN

McKinley Industrial School in Valley to be Dedicated on 29th Inst.

By a "Times" Staff Correspondent
VAN NUYS, Nov. 23.—The new McKinley Industrial Home for Boys is to be dedicated on the afternoon of the 29th inst. The home is now nearing completion. It is on a high hill west of the city. More than half of the twenty buildings which will comprise the entire school, are completed. The remainder are to be erected when more funds are available.

Thomas O'Melveny, Los Angeles, member of the board of trustees, will be principal speaker. Dr. N. Franklin Jones, superintendent of the school, Chaplain Arthur Cotter and Mrs. C. C. Potts, financial secretary of the institution, also will make addresses.

There are now 176 boys in the school. The new building is made of house 300. Three of the buildings are gifts from individuals and civic clubs.

The home is maintained for homeless boys, not for incorrigibles. The boys are permitted to leave the home when they reach 18 years of age, to seek a livelihood. Several recently left the school to pursue high-school study in the Van Nuys High School.

MERCURY CLIMBS
Second Hottest Day of Year at San Diego Recorded

SAN DIEGO, Nov. 23.—Today was recorded as the second hottest day of the year when the mercury climbed to 86 degrees. At the same time the humidity reached the second lowest mark in more than fifty years, that of 40 per cent. The humidity at 5 a. m. was 4 per cent on one occasion in 1904.

An eighteen-mile wind was recorded in the city, but in the foothills and uplands the breeze attained the proportions of a gale. Sweetwater Lake, ordinarily placid, was wind swept to such an extent that whitewater rolled down the lake from sun-up to sundown.

As a result of the warm spell, the beaches were exceedingly popular. The previous highest temperature of the year was recorded on September 29, when the thermometer hit 88 degrees.

TUJUNGA REJOICES OVER GAS SERVICE

TUJUNGA, Nov. 23.—Gas on the great trunk line that comes over the mountains from the natural gas wells of the Midway field in Kern county has been turned into the main that now supplies Tujunga, Burbank and Rossmore, and meters are being placed at residences in these towns. Laying of the big main east of the summit of the San Gabriel mountains, the present project of the Southern California Gas Company, will be supplied to Highway Highways and parts of La Cresenta.

It is expected that the gas will be turned on by the end of the year. Completion of the work will mark the culmination of plans that have been under operation for some time and which involve an expenditure of \$250,000.

RELIC IS PIECE OF SURRATT DEATH NOOSE

INGLEWOOD, Nov. 23.—An interesting relic of the days of Abraham Lincoln was displayed here today by Mrs. B. H. Spafford, wife of one of the City Trustees. This grim reminder of the tragic end of the martyred President is a piece of the rope that was used to hang Mrs. Surratt, one of those sentenced to death for a part in the conspiracy with John Wilkes Booth, the assassin of the great unmanipulator. One of the official witnesses of the hanging was Capt. E. S. Havens, an officer of the Union Army, who was the father of Mrs. Spafford. Mrs. Spafford, by the way, was a school-mate of Gen. John J. Pershing and the first school Gen. Pershing attended was taught by Mrs. Spafford's mother at Laclede, Mo.

MORE THAN HALF OF TAXES FOR SCHOOLS

BAKERSFIELD, Nov. 23.—In compliance with the State law the annual financial statement of the receipts and collections and operative expenses of Kern county has been prepared for the fiscal year of 1923-24. Under the head "education," more than one-half of the entire county expenses are listed, including the library. Education expenses amounted \$2,984,443.45, or just 52.50 per cent. The total county expenditures amounted to \$5,673,935.50.

SAN DIEGO POLICE LOOKING FOR WEAVER

SAN DIEGO, Nov. 23.—Local police were requested today by Chief of Police Trux of Fresno to be on the lookout for H. M. Weaver, wanted in the northern part of the State, and who is believed to have come to San Diego from Los Angeles and Long Beach. Weaver, it is asserted, has been impersonating a naval officer claiming the rank of Lieutenant-commander of the battleship Maryland.

CHICKEN THIEVES IN MAYWOOD ACTIVE

MATWOOD, Nov. 23.—Chicken thieves have been busy in the past few nights and J. Olds, residing on California street, reports to the police that he has been loser to the amount of several dollars. There was stolen from his chicken-house one rooster and twenty-four pullets, which he recently purchased at \$1.50 each.

DEPOT FOR VAN

Building May Have Huge Valley

By a "Times" Staff Correspondent
VAN NUYS, Nov. 23.—The new McKinley Industrial Home for Boys is to be dedicated on the afternoon of the 29th inst. The home is now nearing completion. It is on a high hill west of the city. More than half of the twenty buildings which will comprise the entire school, are completed. The remainder are to be erected when more funds are available.

Thomas O'Melveny, Los Angeles, member of the board of trustees, will be principal speaker. Dr. N. Franklin Jones, superintendent of the school, Chaplain Arthur Cotter and Mrs. C. C. Potts, financial secretary of the institution, also will make addresses.

Pershing and the first school Gen. Pershing attended was taught by Mrs. Spafford's mother at Laclede, Mo.

MORE THAN HALF OF TAXES FOR SCHOOLS

BAKERSFIELD, Nov. 23.—In compliance with the State law the annual financial statement of the receipts and collections and operative expenses of Kern county has been prepared for the fiscal year of 1923-24. Under the head "education," more than one-half of the entire county expenses are listed, including the library. Education expenses amounted \$2,984,443.45, or just 52.50 per cent. The total county expenditures amounted to \$5,673,935.50.

SAN DIEGO POLICE LOOKING FOR WEAVER

SAN DIEGO, Nov. 23.—Local police were requested today by Chief of Police Trux of Fresno to be on the lookout for H. M. Weaver, wanted in the northern part of the State, and who is believed to have come to San Diego from Los Angeles and Long Beach. Weaver, it is asserted, has been impersonating a naval officer claiming the rank of Lieutenant-commander of the battleship Maryland.

CHICKEN THIEVES IN MAYWOOD ACTIVE

MATWOOD, Nov. 23.—Chicken thieves have been busy in the past few nights and J. Olds, residing on California street, reports to the police that he has been loser to the amount of several dollars. There was stolen from his chicken-house one rooster and twenty-four pullets, which he recently purchased at \$1.50 each.

DEPOT FOR VAN

Building May Have Huge Valley

By a "Times" Staff Correspondent
VAN NUYS, Nov. 23.—The new McKinley Industrial Home for Boys is to be dedicated on the afternoon of the 29th inst. The home is now nearing completion. It is on a high hill west of the city. More than half of the twenty buildings which will comprise the entire school, are completed. The remainder are to be erected when more funds are available.

Thomas O'Melveny, Los Angeles, member of the board of trustees, will be principal speaker. Dr. N. Franklin Jones, superintendent of the school, Chaplain Arthur Cotter and Mrs. C. C. Potts, financial secretary of the institution, also will make addresses.

There are now 176 boys in the school. The new building is made of house 300. Three of the buildings are gifts from individuals and civic clubs.

The home is maintained for homeless boys, not for incorrigibles. The boys are permitted to leave the home when they reach 18 years of age, to seek a livelihood. Several recently left the school to pursue high-school study in the Van Nuys High School.

MERCURY CLIMBS
Second Hottest Day of Year at San Diego Recorded

SAN DIEGO, Nov. 23.—Today was recorded as the second hottest day of the year when the mercury climbed to 86 degrees. At the same time the humidity reached the second lowest mark in more than fifty years, that of 40 per cent. The humidity at 5 a. m. was 4 per cent on one occasion in 1904.

An eighteen-mile wind was recorded in the city, but in the foothills and uplands the breeze attained the proportions of a gale. Sweetwater Lake, ordinarily placid, was wind swept to such an extent that whitewater rolled down the lake from sun-up to sundown.

As a result of the warm spell, the beaches were exceedingly popular. The previous highest temperature of the year was recorded on September 29, when the thermometer hit 88 degrees.

TUJUNGA REJOICES OVER GAS SERVICE

TUJUNGA, Nov. 23.—Gas on the great trunk line that comes over the mountains from the natural gas wells of the Midway field in Kern county has been turned into the main that now supplies Tujunga, Burbank and Rossmore, and meters are being placed at residences in these towns. Laying of the big main east of the summit of the San Gabriel mountains, the present project of the Southern California Gas Company, will be supplied to Highway Highways and parts of La Cresenta.

It is expected that the gas will be turned on by the end of the year. Completion of the work will mark the culmination of plans that have been under operation for some time and which involve an expenditure of \$250,000.

RELIC IS PIECE OF SURRATT DEATH NOOSE

AUTO CLUBS IN PARLEY TODAY

Legislation Policies to be Drawn at Bay City
State Highway Work Also Topic for Discussion

Motorists of North, South to be Represented

Representing more than 100,000 automobile owners—members of the two great California motor clubs, a conference will be held today in San Francisco today between the committees on legislation and roads and highways of the two clubs to determine the policies of these organizations pertaining to motor vehicle legislation and State highway construction, which will be among the chief measures for consideration at the coming session of the State Legislature.

Those from this section who will attend the conference include W. L. Valentine, president; H. W. Keller, vice-president; Senator Frank P. Flint, J. F. Bartoli, Edward D. Lyman and Horace G. Miller, directors; S. H. Ellis, Jr., David E. Paries, E. E. East, and Carl E. McIlvay, officers of the Automobile Club of Southern California. These representatives will meet with W. T. Semon, president; George R. Forderer, H. J. Brunner, Percy E. Towne, Senator Arthur H. Reed, directors; and A. E. Loder and D. V. Nicholson, officers of the California State Automobile Association.

DISCUSSION HELD
Preliminary discussion of the existing conditions was held in Los Angeles at a meeting of these two committees in October 27, and it is expected that today's conference will reach definite conclusions to the policies to be advocated by these two representative organizations.

It is hinted that the delegation from Southern California will insist on a fair allocation of funds both for the building of new roads as well as for the maintenance, construction and widening of the present State highway system. Southern California in the past has been paying more than 50 per cent of the total cost for State highway purposes but has been receiving approximately 25 per cent of the expenditures. With 75.2 per cent of all the motor vehicles of California registered from the thirteen southern counties, it is believed that this section of the State should receive more equitable recognition from the State highway authorities than in the past.

CLAIMS JUSTIFIED
To meet the traffic needs of this section, according to experts, many of the present State highways must either be reconstructed or widened at once, and the delegation from Southern California feels that its claims in behalf of the motorists of this part of the State for an expenditure approximating the amounts paid by the motorists in this section are justified.

The proceeds of the \$75,000,000 State highway bond issue and the \$17,000,000 of Federal aid money available for California have either been expended or allotted to existing contract and the method of financing further highway construction will no doubt be one of the chief topics of discussion at this conference.

TRUNK LINES
It is also pointed out that the motorists of California comprise less than one-third the population of the State and that inasmuch as the development of our road system benefits all property, a portion of the cost should be borne by the people as a whole.

One of the policies long advocated by the Automobile Club of Southern California has been to bring about the completion of the trunk line roads of California to connect with the road systems of Oregon, Nevada and Arizona, and it is hoped that the result of this conference will devise ways and means for its accomplishment. To complete all of the roads now with the State system will be approximately \$200,000,000 and many years time, but if the policy of first completing the major trunk lines can be effected, travel can find its way from one end of the State to the other over well improved roads within the next two years.

BONUS FILING URGED

Officers Ordered to Bring Need of Haste to Ex-Marines

Commanding and recruiting officers of the Marine Corps have been instructed in an order issued from Washington to bring to the attention of veterans or their dependents the necessity for making applications for bonus without delay.

Less than half of the men who served in the Marine Corps have so far filed applications for bonuses, the order from Washington said. Delay in applying for a bonus on the part of dependents or veterans will mean considerable loss to them as the insurance policies will carry a higher insurance rate, the date of the policy depending on the time the application is made out.

VETERANS TO HOLD SMOKER WEDNESDAY

Los Angeles Unit, No. 107, of the United Veterans of the Republic will hold a smoker in the Disabled Veterans' Hall at 244 South Hill street, Wednesday night, according to Commander Harry J. L. Atwood, who also announced that the successful candidates recently endorsed by the unit will be present. The nominations of officers of the unit for the coming year will be closed after the Wednesday night affair, and Atwood has issued a request that all members of the local veterans organizations be present at the elections.

SHRINE BALL FOR CHARITY WILL EXCEL

Plans for Entertaining Large Crowd at Annual Event to be Completed

Arrangements will be completed today for the big crowd to attend the annual Al Malakiah Shrine charity ball at the Ambassador Auditorium next Wednesday night to raise a fund for Christmas relief and the annual Christmas tree party for children. Motley H. Flint, executive vice-president of the Pacific-Southern Trust and Savings Bank, and chairman of the Shrine Christmas relief committee, stated last night that thousands interested in these annual events will be in attendance at the ball.

Members of the Malakiah Temple have been providing Christmas cheer for the poor of the city for eighteen years. Last year they spent more than \$30,000 for Christmas tree gifts and Christmas relief for needy Los Angeles families and it is expected a larger fund will be raised this year.

Platonic Basis Fails; Husband is Given Decree

Paul Miller simply could not keep his affection for his wife on a sufficiently platonic basis, so he lost not only her love but even her friendship, which he was striving to keep, he told Judge Sumnerfield at the hearing of his suit for divorce from Gertrude Miller. "I had lost her love anyway," he said. "But she proposed that we continue to live together on a platonic basis. She was to keep house, I to pay the bills."

How the arrangements worked out is not disclosed, but it is believed that this section of the State should receive more equitable recognition from the State highway authorities than in the past.

Girl Rider Dies in Tumble Off Skidding Cycle

Death following a motorcycle accident came to Miss Genevieve Johnson, 19 years of age, of 2111 Union avenue, in El Monte yesterday.

Many of the Northern California counties are advocating an increase of 2 cents a gallon in the gas tax, all of which would go to the State for highway construction purposes, thereby placing upon the motorists of California the entire burden of financing both construction and upkeep of highways. Opposition to this plan has developed upon the ground that the motorist pays now paying, through registration fees and the gasoline tax, approximately \$12,000,000 for the current year, a sum two and one-half times as great as their tax on only two years ago.

SCOUTS OFF TO FIND NEW CARROLL LEADS

PICKINGS OFFICIALS TO STAY IN NEW YORK UNTIL DECEMBER 30

Edward H. Hayden, former secretary to William G. McCaddon and personal secretary to ex-President Wilson, during the peace conference in Paris, departed for New York late yesterday on a mission of importance for Harry Carroll.

Hayden, who has been associated with the Orange Grove Trust, a large real estate company, as a general manager since the concern was organized, Carleton P. Hoagland and Ballard Macdonald, will arrive in New York until December 30, then return to Los Angeles bringing with him new principals to play the leading roles in the second crop of Harry Carroll's "Pickings."

CHEST CAMPAIGN RENEWED

Workers Now Nearing Goal in Gathering Up Loose Ends; Report Meeting Planned

With the goal now plainly in view Community Chest workers are making efforts to bring in the remaining dollars necessary to raise the fund total up to the \$3,222,408 set as the sum needed to maintain for one year the 125 Chest agencies.

While it is not anticipated by campaign leaders that the goal will be reached today they are hoping to report all the loose ends gathered up with the necessary total on hand tomorrow.

MEETING AT HEADQUARTERS
The report meeting will be held at Chest headquarters, 911 South Grand avenue this noon instead of at the Biltmore Hotel which has been the meeting place during the preceding days of the campaign. The mammoth blackboard on which the campaign returns have been tabulated each day, has been moved from the Biltmore to Chest headquarters and returns will be posted today as usual. Box lunches will be served, each worker paying for his own lunch under the same system that prevailed at the Biltmore.

Increase in gifts on the part of wealthy citizens and a more thorough covering of territory already solicited is expected to bring the charity fund up to the necessary total, according to Chairman Elwood. People are constantly reporting in at campaign headquarters that they have not been approached by Chest solicitors and that they desire to contribute to the fund. The mails are also bringing in many

OFFICERS WILL BREATHE EASIER RETENTION OF LUDLOW DEMANDED

Five Harbor Churches Ask Acting Engineer be Kept Till Gen. Beach Comes

Rumors that the Board of Harbor Commissioners intended asking the resignation of Acting Harbor Engineer Ludlow at their meeting tomorrow afternoon caused five churches of the Los Angeles Harbor to adopt resolutions yesterday asking Ludlow to remain at least until Gen. Leslie H. Beach had time to go over the situation and make a recommendation.

Gen. Beach has been tendered the place of consulting engineer and is expected to accept it when he returns to Los Angeles Thursday.

The resolutions recite that it has been publicly reported that Ludlow had been approached by members of the Harbor Commission and asked to resign, with the suggestion that he probably will be ousted if he does not. His leaving the harbor service, it was said, will do a grave injustice to the public and may injure the development of the harbor for years to come. Attention is called to Ludlow's twelve years of service, and full confidence in his ability and integrity is expressed.

The resolutions were drawn by the pastors of the five churches and presented to their congregations at the morning service yesterday. The churches are the First Methodist, the First Baptist, the First Christian, the First Presbyterian, and St. Peter's Episcopal.

Ludlow was ousted last summer by the vote of Commissioners Kibele and Allen, over the protest of President Cullen. When Commissioner Melina was named to take Kibele's place, the reinstatement of Ludlow followed with the title of acting harbor engineer.

FILM FOLK LAUD INCE AT SERVICE
Memorial Observance is Attended by All Ranks in Screen World

Men and women representing every rank of the film industry gathered at Grauman's Hollywood Egyptian Theater an hour before noon yesterday and paid public tribute to the memory of Thomas H. Ince.

From the darkened velvet-shrouded stage containing only a large portrait of the dead film leader, Ernest E. Davis, former president of the National Vaudeville Artists and the Green Room Club, led friends and business associates in the memorial service called by Ed Grauman for many years a close and personal friend of the dead film pioneer.

Thomas Ince has gone," Mr. Davis said, "but he leaves behind him a great industry as an enduring legacy to his genius and his work. He was pre-eminently a worker—a worker who dreamed great dreams and still had the strength of courage and conviction to make those dreams come true. Like many other great men, the vast scope of Tom Ince's influence in the picture industry will not be realized for many years. One hundred years from now, those connected with the picture industry will still be marveling at the magnitude of the spirit of education and progress Mr. Ince has bequeathed to the world."

The program was concluded by an octet of four men and four women. John Henning, a sailor from the U.S.S. California, blew the trumpet and the observance was closed.

Among those who were close friends of the producer were: Mac Murray, Robert Leonard, Charles E. Burton, Eve Unsell, J. Farrell MacDonald, Maurice Barber and wife, formerly Dorothy Farnum; King Baggot, Reginald Barker and Mr. and Mrs. J. G. Hawke.

The Wampus Association, in which Mr. Ince was greatly interested, was represented by Tom Reed, H. H. Beall and Ray H. Leek. Mr. Reed was an associate of the late producer and a close friend.

Head of Plaza Center to Speak to Advertisers

W. T. Gilliland, superintendent of Los Angeles Plaza Community Center, will be the principal speaker at the meeting of the Advertising Club in the Biltmore tomorrow noon. Dr. Gilliland's subject is "Co-operation, Advertisers."

The organization with which Mr. Gilliland is connected often has been called "Methodism's outstanding aid for the Mexicans." This institution ministers to the Mexicans of Southern California and is an organization which has attracted national attention ever since its inception here. Dr. Gilliland was born in South America and is well acquainted with conditions in the Latin countries and is conversant with trade relations between those countries and the United States. He formerly occupied the chair of missions and evangelism at the University of California.

SUCCESS OF DRIVE SEEN
"While we did not reach our goal during the ten-day period designated, I feel that the movement has been a distinct success. Los Angeles will receive many benefits from the community chest, I feel sure. The business man and the working man will benefit greatly through the doing away with constant appeals for charity upon their time. More than 100,000 people who have not previously known the joy of giving to organized charity now understand the satisfaction that comes from such giving."

Horace Dunbar, president of the Rotary Club, will be chairman of the meeting today. Rev. E. E. Helms, pastor of the First Methodist Episcopal Church, will be the principal speaker.

JAPANESE LIKE NIPPON'S FILMS

Amusement Man of Honolulu Cites Demand in Hawaii

Mikado Subjects There Want Much Screen Carnage

Pictures made in Japan intrigue the sons and daughters of Nippon who dwell in Hawaii to a greater extent than American films, says E. K. Fernandes of Honolulu, operator of several motion-picture houses as well as a number of outdoor amusement enterprises throughout the islands.

Fernandes, who is at the Biltmore, is now in the United States in search of material for his next season's amusement program, including a winter carnival for which plans are under way in Honolulu. "Japanese pictures don't mean a thing to an American but to the natives they are a tremendous kick out of them," said Fernandes. "Like the oriental languages which picture are constructed along lines strictly their own."

MUCH CARNAGE
"They begin with scenes of carnage in which great groups armed with deadly weapons take an enthusiastic part. The majority of the pictures depicting a satisfactory scene in the final scene. They lack the coherence of the American films, most of which are constructed so that it is reasonably possible to follow a story from beginning to end through a series of reels."

Too, they don't like to see scenes so inexplicable that they have to be interpreted verbally by a local lecturer who makes up his own story as the pictures are projected on the screen. Another peculiarity of Japanese film presentation is that the reels are run through the projecting instrument very slowly. The reason for this deliberation I don't know, unless it be based on the principle of sweets long drawn out."

CIRCUS ATTRACTS
Fernandes stated that while legitimate theaters are not very popular in the islands, different forms of outdoor amusements, particularly the circus, attract great throngs of the oriental and native Hawaiian population.

There is too much formality about the theater to suit them," he said. "Among other things the arrangement of the seats doesn't leave enough room to enable the members of the audience to assume the respectful position in which they delight when being entertained. Too, they don't like to dress up when attending a show, preferring to wear kimonos, and other loose and flowing garments calculated to add to the ease of the wearer."

"For these reasons the legitimate theater has not been developed to any great extent in Hawaii. It's too far away to make a good one-night stand and the few stock companies that have tried to operate there have discovered that the program requires a semi-weekly change to attract theatergoers. They may be a reasonable house the first two or three nights when a new bill is presented, but then the attendance falls off because the number of those inclined to attend such a performance has been exhausted. But the picture houses and the outdoor amusements do a good business."

FAST WORK BY OFFICER SAVES LIFE

Detective Leaps on Man Accused of Firing Three Shots at Neighbor

The interference of Detective Lieutenant Gibson of the Holbeck Heights police, who discovered the police in the South Utah street during an altercation with Mike Shubin, a neighbor, probably saved the life of the latter. Shubin rushed out of the rear door of a store at 1331 East First street after Workman had fired three shots in his direction, according to a police report.

Lieut. Gibson was driving past in his automobile as the shots were being fired. Stopping his car, the detective rushed into the place and leaped on the back of Workman, who was grasping a smoking revolver. After a brief struggle, Gibson disarmed Workman and brought him to Central Station, where he was booked on a charge of assault with a deadly weapon.

She's Glad She Didn't Marry Sharpshooter

Myrtle C. Doran is thoroughly disgusted with her venture in matrimony, but she has one thing to be thankful for at least.

She didn't marry a sharpshooter. It was only because the aim of Reuben C. Doran did not equal his aspirations that she had any need for a divorce, according to her suit for divorce, filed in the office of the County Clerk. That, and the happy circumstance that the pistol jammed at the third shot. Twice he fired at her, and twice he missed her, she declared.

The third shot had all the earmarks of a bullseye, but it never came off because of a lucky fluke, she related. Attorney William Durham filed the action for Mrs. Doran.

DAY OF REST REQUESTED

The Methodist Preachers' meeting of Southern California has asked the City Council to permit the engineering department employees who do not desire to work on Sundays to be permitted to have the day as one of rest. The petition was occasioned by the fact that a number of street sweepers and garbage collectors often work Sundays.

DRIVE TO BE IMPROVED
A property owners' petition asking for the improvement of Beechwood Drive from Melrose avenue to Rosewood avenue has been granted by the City Council.

Schools and Colleges Information About Schools

The Times' School and College section contains complete information about Education Training. Carleton P. Hoagland, who is in charge of the section, will be helpful to you. Address, write or call the Bureau, First State Office Building, Room 700—or leave your name with the editor, Mr. H. W. Keller, at 244 South Hill street and the name will be mailed to you.

DATES FOR CHRISTMAS MAIL TOLD
Angelenos Are Warned to Send Parcels to Distant Points Early

A list of latest mailing dates for foreign, eastern and southern points was released yesterday by Postmaster P. P. O'Brien, as a part of his campaign to awaken people to the necessity of mailing their Christmas packages early if they want them delivered in time.

Mail for foreign points should be delivered to the local postoffice not later than December 3, and for extreme distances should be dispatched as much earlier as can be arranged. Many people are mailing foreign packages now, and the postmaster is congratulating these for their wisdom.

The latest mailing date for Christmas packages to New York and far eastern points is December 12, which is allowing time for expected railroad tie-ups due to weather conditions and congested mail conditions. The date is also effective for southeastern points.

"There will be no congestion in the local postoffice, but I do not know what Los Angeles mail will have to contend with in the East," said the postmaster. "The wave of prosperity that has swept the East following the election of November indicates a heavy Christmas mail, with the consequent congestion."

No-Parking Rule Repeat Request to be Discussed

The Public Safety Committee of the City Council will at its meeting on next Wednesday afternoon consider the request of business men on Third street, from Hill street to Main street, that the morning no-parking restrictions on this street be repealed January 1, 1925. Their request is based on the regulation which prevents parking on Third street during the morning hours.

On December 1, next, the emergency ordinance prohibiting parking in the entire downtown district was scheduled to expire. It will take effect and will continue until December 31, to relieve congestion during the Christmas shopping season.

STATE SECRETS STOLEN
Coded Messages to Our Diplomats Abroad Not Always Safe

Of course, the confidential messages between the President or the Department of State and our diplomats are guarded by code. It is true that most of the messages sent in and out of the United States go over the cable to our consulates and I have known numbers of European diplomats who were frank in stating their belief that we suffered from this disadvantage because our messages could be delayed and perhaps read by certain European powers.

We do not doubt that, like other nations, have elaborate codes, but these official codes are sometimes broken. Some of the European powers have staffs of experts who take as many copies of stolen messages as can be obtained and endeavor to unravel the code.

Many of these experts are recruited from the class of mathematical or puzzle-solving cranks who have grown lean and hollow poring over arithmetical tricks, number squares and other unproductive hobbies. In certain foreign offices there are equipment so perfected that once in possession of the diplomatic mail pouch of some foreign country, this pouch may be opened, and all broken contents read and destroyed within a few hours a whole set of letters reproduced with seals attached, and all inclosed in a diplomatic pouch with lead seals, and none of this reproduction can be told from the original.

I was once shown a pretty little instrument like a tuning fork with the ends of the fork joined by a thin wire. This could be inserted into the tiny space where the bottom or top flap on the back of the sealed envelope met the bottom or top edge of the turn-over. If one of the prongs were slipped inside the fold of the sealed letter and the fork was twisted around and around, the letter could be rolled up into a tiny cylinder, which then could be drawn out sideways, reinserted and unrolled back into place.

Leaks do happen and spies do occasionally pry into the diplomats' desk. In Rome during a certain quiet period I used to close my desk drawer at night with a piece of
